This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, nor should it be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

INSTITUTION RATING

INSTITUTION’S CRA RATING: This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area, including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities.

PERFORMANCE LEVELS	PERFORMANCE TESTS		
	Lending Test*	Investment Test	Service Test
Outstanding		X	
High Satisfactory	X		
Low Satisfactory			X
Needs to Improve			
Substantial Noncompliance			
* The Lending Test is weighted more heavily than the Investment and Service Tests when arriving at an overall rating.			

The Lending Test is rated High Satisfactory.

- Lending levels reflect good responsiveness to assessment area credit needs.
- A substantial majority of loans are made in the institution’s assessment areas.
- The geographic distribution of loans reflects adequate penetration throughout the assessment areas.
- The distribution of borrowers reflects good penetration among retail customers of different income levels and businesses and farms of different sizes.
- The institution exhibits a good record of serving the credit needs of the most economically disadvantaged areas of its assessment areas, low-income individuals, and very small businesses, consistent with safe and sound banking practices.
- The institution uses innovative and flexible lending practices in order to serve assessment area credit needs.
- The institution made a relatively high level of community development loans.

The Investment Test is rated Outstanding.

- The institution has an excellent level of qualified community development investments and grants, often in a leadership position, particularly those that are not routinely provided by private investors.

- The institution exhibits good responsiveness to credit and community economic development needs.
- The institution occasionally uses innovative or complex investments to support community development initiatives.

The Service Test is rated Low Satisfactory.

- Delivery systems are reasonably accessible to essentially all portions of the assessment areas.
- To the extent changes have been made, the institution’s opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals.
- Services and business hours do not vary in a way that inconveniences portions of the assessment areas, particularly low- and moderate-income geographies and individuals.
- The institution provides an adequate level of community development services.

DESCRIPTION OF INSTITUTION

Background and Operations

First Merchants Bank (First Merchants) is headquartered in Muncie, Indiana, roughly 60 miles northeast of Indianapolis in the east central portion of the state. The bank is wholly owned by First Merchants Corporation, a one-bank holding company also based in Muncie. The holding company is traded on the NASDAQ under the symbol FRME. First Merchants received a “Satisfactory” rating at its previous FDIC CRA Performance Evaluation dated June 5, 2018, based on Interagency Large Institution Examination Procedures.

In total, First Merchants operates 106 offices across four Midwestern states. The bank offers traditional loan products, deposit products, and other banking services for retail and commercial customers. Loan product offerings include home mortgage, commercial, agricultural, and consumer loans and lines of credit. Deposit products include checking, savings, certificates of deposit, health savings accounts, and individual retirement accounts. The bank also offers various wealth management services.

First Merchants acquired Monroe Bank & Trust, a Michigan-based state nonmember bank, during the evaluation period. This acquisition expanded First Merchants’ operations into Michigan. Monroe Bank & Trust was a full-service commercial bank with operations in southeastern Michigan. The following table provides key details of this acquisition.

Acquired Bank Name (Headquarters Location)	FDIC Certificate Number	Acquisition Date	Total Assets as of Acquisition Date	Number of Offices as of Acquisition Date	Most Recent CRA Evaluation Date (Rating)
Monroe Bank & Trust (Monroe MI)	12181	9/1/2019	\$1.3 billion (6/30/2019)	20	4/3/2017 (Satisfactory)

Even with this acquisition, First Merchants' total number offices has declined slightly since the previous evaluation, at which time the bank operated 118 offices. During this evaluation period, the bank opened one office and closed approximately 30 offices. Refer to the Service Test portions of this evaluation for more information on these branch changes.

The bank has several subsidiaries and affiliates; however, none of these offer credit products or services and none were included in the scope of this evaluation.

Ability and Capacity

First Merchants' assets totaled \$14.9 billion as of June 30, 2021. This figure includes total loans of \$9.1 billion and total securities of \$4.1 billion. The bank's total asset size has increased by approximately \$5.4 billion, or 57 percent, since the previous evaluation. The loan portfolio has increased by approximately \$2.2 billion, or 32 percent, over the same timeframe. First Merchants' current deposit base is \$12.3 billion.

Commercial lending, including both commercial real estate and commercial/industrial loans, makes up the largest percentage of the bank's loan portfolio at \$5.1 billion or roughly 56 percent. Home mortgage lending, excluding multifamily residential lending, makes up the second largest lending category at \$1.6 billion or roughly 18 percent. The following table provides a breakdown of the bank's loan portfolio by category.

Loan Portfolio Distribution as of 6/30/2021		
Loan Category	\$(000s)	%
Construction, Land Development, and Other Land Loans	491,200	5.4
Secured by Farmland	171,492	1.9
Secured by 1-4 Family Residential Properties	1,635,922	17.9
Secured by Multifamily (5 or more) Residential Properties	797,242	8.7
Secured by Nonfarm Nonresidential Properties	2,419,756	26.5
Total Real Estate Loans	5,515,612	60.4
Commercial and Industrial Loans	2,671,076	29.2
Agricultural Production and Other Loans to Farmers	63,528	0.7
Consumer Loans	130,918	1.4
Obligations of State and Political Subdivisions in the U.S.	729,020	8.0
Other Loans	29,678	0.3
Lease Financing Receivable (net of unearned income)	0	0.0
Less: Unearned Income	(0)	(0.0)
Total Loans	9,139,832	100.0
<i>Source: Reports of Condition and Income</i>		

First Merchants' loan portfolio composition has shifted slightly since the previous evaluation. In particular, although total real estate loans have increased by about \$750 million since the previous evaluation, real estate loans as a percentage of the total portfolio have declined from 69 percent to 60 percent. In contrast, over the same timeframe, commercial and industrial loans have increased by \$1.1 billion, or from 23 percent to 29 percent of the total portfolio.

Additionally, First Merchants originates and sells a significant number of home mortgage loans on the secondary market, and the bank’s loan portfolio does not fully reflect this activity. According to data reported under the Home Mortgage Disclosure Act (HMDA), the bank sold 2,120 loans totaling \$410.6 million on the secondary market in 2020. This level represents approximately 50 percent of the bank’s total closed-end home mortgage originations by number in 2020, and approximately 43 percent by dollar volume.

Examiners did not identify any financial, legal, or other impediments that would limit the institution’s ability to meet assessment area credit needs.

DESCRIPTION OF ASSESSMENT AREAS

The CRA requires each financial institution to define one or more assessment areas within which its CRA performance is evaluated. First Merchants delineated ten assessment areas across five separate rated areas. These assessment areas do not arbitrarily exclude low- or moderate-income census tracts, do not reflect illegal discrimination, and otherwise meet the requirements of the CRA regulations.

The following table outlines the assessment areas and rated areas. The table lists rated areas and the assessment areas within each in the order of weight that each area carried in arriving at overall performance conclusions. The two Michigan assessment areas are new since the previous evaluation. Refer to the Scope of Evaluation section for more information on the weighting of assessment areas in arriving at overall conclusions.

Rated Areas and Assessment Areas		
Rated Area	Assessment Area Full Name	Assessment Area Abbreviated Name
Indiana	Indianapolis-Carmel-Anderson, IN Metropolitan Statistical Area (MSA)	Indianapolis MSA
	Non-Metropolitan Indiana	Indiana Non-MSA
	Muncie, IN MSA	Muncie MSA
	Lafayette-West Lafayette, IN MSA	Lafayette MSA
	Fort Wayne, IN MSA	Fort Wayne MSA
Chicago-Naperville-Elgin, IL-IN-WI Multistate MSA	Chicago-Naperville-Elgin, IL-IN-WI MSA	Chicago MSA
Michigan	Monroe, MI MSA	Monroe MSA
	Detroit-Warren-Dearborn, MI MSA	Detroit MSA
Ohio	Columbus, OH MSA	Columbus MSA
Cincinnati, OH-KY-IN Multistate MSA	Cincinnati, OH-KY-IN MSA	Cincinnati MSA

The five rated areas include two multistate MSAs: the Chicago MSA and the Cincinnati MSA. Because First Merchants operates branch offices in multiple states within each of these MSAs, examiners evaluated the bank’s performance in these MSAs as separate rated areas. For example, within the Chicago MSA, First Merchants operates offices in both Illinois and Indiana.

The following table provides additional information on each assessment area, including counties, number of census tracts, and number of First Merchants branches. Refer to the separate assessment area sections of this evaluation for more information on each assessment area.

Description of Assessment Areas			
Assessment Area	Counties in Assessment Area	# of Census Tracts	# of Branches
Indianapolis MSA	Brown, Hamilton, Hancock, Hendricks, Johnson, Madison, Marion, Morgan, Shelby	380	26
Indiana Non-MSA	Adams, Clinton, Fayette, Henry, Huntington, Jay, Marshall, Miami, Montgomery, Randolph, Wabash, Wayne, Wells, White	130	16
Muncie MSA	Delaware	30	6
Lafayette MSA	Carroll, Tippecanoe	44	8
Fort Wayne MSA	Allen	96	6
Chicago MSA	Cook (IL) – <i>partial</i> , DuPage (IL) – <i>partial</i> , Jasper (IN), Lake (IN), Porter (IN)	450	18
Monroe MSA	Monroe	39	11
Detroit MSA	Wayne	611	6
Columbus MSA	Franklin	284	7
Cincinnati MSA	Butler (OH), Union (IN)	82	2
<i>Source: Bank Records</i>			

SCOPE OF EVALUATION

General Information

This evaluation covers the period from the prior evaluation dated June 5, 2018, to the current evaluation dated September 29, 2021. Examiners used the Interagency Large Institution Examination Procedures to evaluate First Merchants’ CRA performance. These procedures include three tests: the Lending Test, Investment Test, and Service Test. The Appendix includes a summary of the criteria used to assess each of these tests.

In arriving at overall performance conclusions, examiners weighed each rated area separately based on the proportion of bank operations and lending activity in each area. The rated areas in order from greatest to least weight are as follows: Indiana, Chicago MSA, Michigan, Ohio, and Cincinnati MSA.

The following table details the distribution of bank offices, loans, and deposits among the ten assessment areas in 2020. The table also shows which areas received full-scope reviews and which received limited-scope reviews.

Assessment Areas by Number of Offices, Loans, Deposits, and Type of Review						
Assessment Area	# of Offices	Loans*		Deposits		Type of Review
		\$(000s)	%	\$(000s)	%	
Indianapolis MSA	26	545,295	29.2	2,593,176	23.6	Full-Scope
Indiana Non-MSA	16	214,372	11.5	1,343,989	12.2	Full-Scope
Muncie MSA	6	95,533	5.1	1,672,144	15.2	Limited-Scope
Lafayette MSA	8	159,858	8.5	801,692	7.3	Limited-Scope
Fort Wayne MSA	6	214,460	11.5	781,024	7.1	Limited-Scope
Chicago MSA	18	198,016	10.6	1,694,161	15.4	Full-Scope
Monroe MSA	11	103,780	5.5	1,047,013	9.5	Full-Scope
Detroit MSA	6	92,880	5.0	201,788	1.8	Limited-Scope
Columbus MSA	7	233,084	12.5	787,938	7.2	Full-Scope
Cincinnati MSA	2	10,796	0.6	75,293	0.7	Full-Scope
Total	106	1,868,074	100.0	10,998,218	100.0	

*Source: Bank Records, FDIC Summary of Deposits (6/30/2020). *Loans include 2020 closed-end home mortgage, open-end home mortgage, small business, and small farm loan originations.*

Activities Reviewed

For the Lending Test, examiners reviewed First Merchants' home mortgage, small business, and small farm lending for 2018, 2019, and 2020. Given that performance was consistent throughout the evaluation period, this evaluation presents loan data only for 2019 and 2020, the most recent years for which CRA and HMDA aggregate data were available, respectively. Additionally, given the timing of the bank's acquisition of Monroe Bank & Trust, this evaluation presents only 2020 loan data for the two Michigan assessment areas. Finally, examiners did not review consumer loans, as they are not a major product line of the bank.

Home mortgage loans include all closed-end and open-end loans reported under HMDA data collection requirements. Due to the significant volume of both closed-end and open-end HMDA loans, examiners analyzed these products separately. Small business and small farm loans include all loans reported under CRA data collection requirements.

Closed-end home mortgage lending and small business lending carried the greatest weight when arriving at overall conclusions. These two products carried equal weight. This conclusion considered the bank's business focus and the number and dollar volume of annual originations. Open-end home mortgage lending carried the next greatest weight, and small farm lending carried the least weight. Furthermore, the bank's small farm lending is concentrated in five assessment areas: Indianapolis MSA, Indiana Non-MSA, Lafayette MSA, Chicago MSA, and Monroe MSA. Given that small farm lending volume in the remaining assessment areas was too low to support meaningful conclusions, this evaluation presents small farm lending only for the five previously mentioned assessment areas.

The following table depicts the total origination volume for 2019 and 2020 for each of the four loan products reviewed in this evaluation.

Home Mortgage, Small Business, and Small Farm Lending								
Year	Closed-End Home Mortgage #	Closed-End Home Mortgage \$(000)	Open-End Home Mortgage #	Open-End Home Mortgage \$(000)	Small Business #	Small Business \$(000)	Small Farm #	Small Farm \$(000)
2019	3,047	621,538	2,580	246,092	2,639	535,919	522	81,639
2020	4,614	1,017,227	2,487	229,839	6,886	1,028,316	596	84,176
<i>Sources: 2019 and 2020 HMDA, Small Business, and Small Farm Loan Data</i>								

Examiners evaluated First Merchants’ lending performance through comparisons to 2015 American Community Survey (ACS) demographic data, 2018-2020 D&B business demographic data, 2018-2020 HMDA aggregate data, and 2018-2019 CRA aggregate data. Examiners focused primarily on comparisons to HMDA and CRA aggregate data. Additionally, while this evaluation presents both the number and dollar volume of loan originations, examiners generally focused on performance by number of loans, as this is a better indicator of the number of individuals, businesses, and farms served.

Examiners reviewed the bank’s delivery systems for providing retail banking services, including physical branch locations and alternative delivery systems. Examiners evaluated the impact of branch openings and closings on the accessibility of bank delivery systems within each assessment area. Refer to the Service Test portions of this evaluation for more information on these areas. Additionally, examiners evaluated the bank’s retail banking products and services tailored to the needs of low- and moderate-income individuals. Refer to the Service Test portions of this evaluation, as well as the Innovative or Flexible Lending sections of the Lending Test, for more information on these products and services.

Finally, examiners considered all community development loans, qualified investments, and community development services since First Merchants’ prior CRA evaluation dated June 5, 2018. Examiners considered community development loans of the acquired bank if these loans were originated within the review period for this evaluation and had not been previously considered in the acquired bank’s most recent CRA evaluation. With respect to qualified investments, examiners generally considered any acquired investments that remained outstanding as of the applicable merger date. Depending on whether these investments were purchased within the review period for this evaluation, such investments are categorized as either current period or prior period investments. All prior period investments, both acquired and non-acquired, received credit for the outstanding balance as of this evaluation date. For community development services performed by acquired bank employees, examiners only considered services that continued after the merger date.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

The Lending Test rating is High Satisfactory. Performance under the lending activity, assessment area concentration, borrower profile, innovative and flexible lending, and community development lending criteria primarily support this rating.

Lending Activity

Lending levels reflect good responsiveness to assessment area credit needs. Performance was generally strong across most assessment areas, with the exception of the Cincinnati MSA assessment area. However, given the relatively small proportion of bank operations in the Cincinnati MSA assessment area, the weaker performance in that area did not have a significant impact on the bank's overall performance under this criterion. Refer to the separate assessment area sections of this evaluation for additional information, including market share analysis.

Assessment Area Concentration

A substantial majority of loans were made in the institution's assessment areas. As reflected in the following table, First Merchants originated substantial majorities of closed-end home mortgage, open-end home mortgage, small business, and small farm loans in its assessment areas in 2018, 2019, and 2020.

Lending Inside and Outside of the Assessment Area										
Loan Category	Number of Loans				Total #	Dollar Amount of Loans \$(000s)				Total \$(000s)
	Inside		Outside			Inside		Outside		
	#	%	#	%		\$	%	\$	%	
Closed-End Home Mortgage										
2018	2,349	86.8	356	13.2	2,705	365,510	73.6	131,409	26.4	496,919
2019	2,604	85.5	443	14.5	3,047	474,822	76.4	146,715	23.6	621,538
2020	3,951	85.6	663	14.4	4,614	741,090	72.9	276,137	27.1	1,017,227

<i>Source: Bank Data</i> <i>Due to rounding, totals may not equal 100.0%</i>										

Geographic Distribution

The geographic distribution of loans reflects adequate penetration throughout the assessment areas. While results were stronger in Michigan and weaker in the Cincinnati MSA, this conclusion is supported by performance in the other three rated areas, including the two most heavily weighted areas. Refer to the separate assessment area sections of this evaluation for more detailed information.

Borrower Profile

The distribution of borrowers reflects good penetration among retail customers of different income levels and businesses and farms of different sizes. Borrower profile performance was good in the most heavily weighted rated areas (i.e., Indiana and the Chicago multistate MSA), and performance was at least at an adequate level across the remaining rated areas. Refer to the separate assessment area sections of this evaluation for more detailed information.

Innovative or Flexible Lending Practices

The bank uses innovative and flexible lending practices to serve assessment area credit needs. The bank originated innovative and flexible loans totaling more than \$286 million since the previous evaluation. Moreover, this figure excludes the more than \$1 billion in Paycheck Protection Program (PPP) loan originations that were originated by the bank, which are noted below.

The bank's innovative and flexible loan product offerings include both bank-developed and government-sponsored loan programs that help to meet the credit needs of low- and moderate-income borrowers. Below are brief descriptions of each of these loan programs that the bank offers.

- Next Horizon mortgages – Next Horizon is First Merchants' signature home mortgage product for low- and moderate-income borrowers. This product was previously known as "First Home." Under this program, the bank offers up to 100 percent financing with no requirement to obtain private mortgage insurance. The program also offers more flexible underwriting standards than conventional mortgage loans. For example, in underwriting these loans, the bank considers rent or utility payments as alternative credit sources for borrowers that do not have lengthy credit histories. These types of flexibilities are particularly beneficial to low- and moderate-income borrowers. Furthermore, since the previous evaluation, the bank has expanded and refined this program to meet the needs of low- and moderate-income borrowers throughout all assessment areas. The bank originated nearly 700 Next Horizon mortgages during the current evaluation period, compared to 134 originations during the prior evaluation period.
- Fannie Mae/Freddie Mac loan programs – The bank offers flexible loan programs in conjunction with the Federal National Mortgage Association (Fannie Mae) and Federal Home Loan Mortgage Corporation (Freddie Mac). Specifically, the bank originates loans through Fannie Mae's Home Ready program and Freddie Mac's Home One and Home Possible programs. These programs help low- and moderate-income borrowers achieve homeownership by allowing high loan-to-value ratios and flexible underwriting standards. These programs are denoted as "Fannie & Freddie programs" throughout this evaluation.
- Government-guaranteed mortgage loans – The bank continues to offer home mortgage loans guaranteed by the Federal Housing Administration (FHA), United States Department of Veterans Affairs (VA), and United States Department of Agriculture (USDA) Rural Housing Service. These programs are particularly helpful in supporting low- and moderate-income families achieve homeownership by offering flexible underwriting standards, competitive rates, and low down payments.

- State housing finance agency (HFA) loans – The bank originates home mortgage loans in conjunction with various state housing finance agencies throughout the assessment areas. For example, the Indiana Housing and Community Development Authority offers several home mortgage products tailored to the needs of low- and moderate-income borrowers and first-time homebuyers, some of which are FHA-insured. Although the bank participates in these programs in all four states where it operates, most originations of this type are in Indiana. These programs are denoted as “State HFA” programs throughout this evaluation.
- Small Business Administration (SBA) loans – The bank continues to originate SBA loans for commercial borrowers. SBA lending programs, namely the 504 and 7A programs, provide access to financing for small businesses meeting certain size and eligibility requirements. The bank receives a guaranty from the SBA for portions of such loans. The bank also originated PPP loans through the SBA. The federal government established PPP to provide emergency assistance to businesses during the COVID-19 pandemic. These PPP loans are described in greater detail below and are not included in the SBA portion of the following table.
- Unsecured home improvement loans – The bank continues to offer unsecured home improvement loans. With this product, borrowers can obtain home improvement loans for up to \$5,000 at discounted rates. This program is helpful for low- and moderate-income borrowers needing critical home repairs and who may not have sufficient home equity against which to borrow.
- Credit Creator loans – The bank continues to offer the Credit Creator loan program, which helps individuals establish positive credit histories. Under this program, the bank deposits loan proceeds, typically \$1,000 to \$2,500, into a savings account. Borrowers then make monthly payments, and the bank reports these payments to the major credit bureaus. When the loan is paid in full, the bank releases the funds in the savings account to the borrower.

The following table details these innovative and flexible loan originations by type and year. Refer to the separate assessment area sections of this evaluation for more information on the bank’s innovative and flexible lending volume through these programs.

<i>Source: Bank Data</i>											

In addition to the programs included in the previous table, the bank offers several other flexible lending programs. Given the nature of these programs, lending totals are noted here, but not mentioned further in this evaluation.

First, as noted previously, the bank originated over \$1 billion in PPP loans to assist businesses facing financial strain during the COVID-19 pandemic in 2020 and 2021. PPP loans allowed businesses to retain or rehire employees during the COVID-19 pandemic. The SBA provides loan forgiveness to PPP borrowers that use loan funds for eligible expenses and meet employee retention criteria. The following table presents a breakdown of First Merchants' PPP loan originations by assessment area. Although not noted in the table below, First Merchants also originated 860 PPP loans totaling \$198.4 million outside of its assessment areas.

PPP Loan Originations in 2020 and 2021		
Assessment Area	#	\$(000s)
Indianapolis MSA	1,878	343,741
Indiana Non-MSA	1,131	103,319
Muncie MSA	473	57,344
Lafayette MSA	588	54,504
Fort Wayne MSA	589	106,357
Chicago MSA	876	146,469
Monroe MSA	627	62,050
Detroit MSA	408	64,676
Columbus MSA	576	131,355
Cincinnati MSA	72	6,451
Total	7,218	1,076,266
<i>Source: Bank Records</i>		

Additionally, the bank originates home mortgage loans that involve third-party grants to assist borrowers with down payments and other costs. Specifically, the bank helps eligible borrowers acquire down payment assistance grants through the Federal Home Loan Bank of Indianapolis. Grant programs include the Homeownership Opportunities Program, Accessibility Modification Program, and Neighborhood Impact Program. These grants, typically ranging from \$5,000 to \$10,000, provide funds to low- and moderate-income borrowers to use for down payments, closing costs, accessibility modifications, and general home repairs. Since the previous evaluation, the bank originated 205 loans that included these grant components. Many of these are FHA loans or other types of flexible loans reflected in the Innovative and Flexible Lending Programs table. Moreover, First Merchants offers its own down payment assistance grants, using bank funds to assist borrowers. Refer to the Investment Test sections of this evaluation for more information on that program.

Finally, the bank continues to offer secured credit cards. While offered broadly to its entire customer base, this product is most often utilized by low- and moderate-income borrowers who might not otherwise qualify for a traditional unsecured credit card. Obtaining a secured credit card allows individuals to establish or repair credit histories. Since the previous evaluation, the bank opened 1,125 secured credit card accounts across all assessment areas. The average credit limit for these accounts is approximately \$500.

Community Development Loans

First Merchants made a relatively high level of community development loans. During the evaluation period, the bank originated 133 community development loans totaling \$477.0 million. Slightly less than a quarter of the bank's total community development lending by dollar volume was originated through the SBA's PPP program in response to the COVID-19 pandemic in 2020 and 2021. Fifty-three PPP loans totaling \$105.7 million qualified for community development credit.

In order to make meaningful comparisons to similarly situated banks and prior evaluations, examiners evaluated First Merchants' community development lending performance both with and without PPP loans. Excluding PPP loans, the bank originated 80 community development loans totaling \$371.3 million. This level of community development lending represents a dollar volume increase of roughly 225 percent from the prior evaluation period, during which the bank originated 29 community development loans totaling \$113.9 million. This increase in community development lending significantly outpaced the 57 percent increase in total bank assets over the same timeframe. Furthermore, again excluding PPP loans, the bank's community development lending represents 4.5 percent of average total loans and 3.0 percent of average total assets throughout the evaluation period.

Examiners compared First Merchants' community development lending performance to the performance of nine similarly situated banks. This group of banks includes institutions throughout First Merchants' market area that have a similar asset size and business focus as First Merchants. Among these nine banks, First Merchants ranked near the middle in terms of community development lending as a percentage of both average net loans and average total assets. First Merchants maintained ratios that were consistent with other banks assessed as High Satisfactory under this criterion.

First Merchants originated community development loans throughout 8 of the 10 assessment areas. The bank did not originate any community development loans in the Monroe MSA or Cincinnati MSA assessment area. Community development loans supported all four community development categories: affordable housing, community services for low- and moderate-income individuals, economic development, and revitalization and stabilization of low- and moderate-income areas.

The following table details First Merchants' community development lending by assessment area and purpose. Refer to the separate assessment areas sections of this evaluation for more specific information on the bank's community development lending.

INVESTMENT TEST

The Investment Test rating is Outstanding. An excellent overall level of investment and grant activity across the rated areas supports this rating.

Investment and Grant Activity

The institution has an excellent level of qualified community development investments and grants. The bank's investments and donations during the evaluation period totaled \$200.1 million, which represents a more than 150 percent increase in total investments compared to the adequate level of investments noted at the previous evaluation. Investments included 108 new investments totaling \$181.1 million and 6 prior period investments totaling \$12.4 million that remain outstanding. The bank also made over 800 qualified donations and grants totaling \$6.5 million.

Total investments represent 7.8 percent of average total securities and 1.6 percent of average total assets throughout the evaluation period. First Merchants' Investment Test performance compared favorably against the performance of similarly situated banks. In terms of total investments as percentages of average total securities and average total assets, First Merchants' performance was consistent with other large regional banks who received Investment Test ratings of Outstanding at their most recent CRA Performance Evaluations.

The bank's investments and donations supported all four community development categories, with the largest dollar volume of investments in affordable housing initiatives. Examiners noted qualified investment activity in all ten assessment areas, with the highest volume of investments (\$52.0 million) in the Indianapolis MSA assessment area. Other assessment areas with particularly high investment volumes were the Chicago MSA (\$26.6 million), Muncie MSA (\$21.0 million), and Lafayette MSA (\$20.7 million). Also included in the table below are investments and

donations totaling approximately \$34.7 million that benefitted broader statewide and regional areas. Examiners considered these investments given that First Merchants satisfactorily addressed needs within its assessment areas.

The following table details the bank’s investments by year and purpose. Refer to the separate assessment area sections of this evaluation for more information.

Qualified Investments and Donations										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

<i>Source: Bank Data</i>										

As noted in the previous table, during the evaluation period, the bank provided nearly 500 down payment assistance grants to low- and moderate-income home mortgage borrowers. These grants averaged roughly \$5,000 per loan, with the bank providing grants up to \$7,500 in some cases. Given that access to affordable housing is a critical need in all of the bank’s assessment areas, examiners considered these down payment assistance grants particularly responsive to the needs of low- and moderate-income families.

Due to the identical nature of these grants across all assessment areas, the totals are included here but are not included in the separate assessment area sections of this evaluation. The following table provides a breakdown of the down payment assistance grants by assessment area.

Home Mortgage Down Payment Assistance Grants								
Assessment Area	2019		2020		2021		Total

Source: Bank Data

Responsiveness to Credit and Community Development Needs

The institution exhibits good responsiveness to credit and community development needs. First Merchants' qualified investments addressed community development needs throughout the assessment areas. While results were not as strong in the Michigan and Cincinnati MSA markets, this conclusion is supported by performance in the three remaining rated areas, including the two most heavily weighted areas. Refer to the separate assessment area sections of this evaluation for more information.

Community Development Initiatives

The institution occasionally uses innovative or complex investments to support community development initiatives. Some of the bank's investments exhibited complex characteristics, such as investment funds structured to achieve specific community development purposes. Refer to the separate assessment area sections of this evaluation for more information.

SERVICE TEST

The Service Test rating is Low Satisfactory. The bank's performance under each Service Test criterion supports the rating.

Accessibility of Delivery Systems

Delivery systems are reasonably accessible to essentially all portions of the institution's assessment areas. Performance under this criterion is generally consistent across all assessment areas. The bank's office locations are generally well positioned to serve the needs of low- and moderate-income areas throughout the assessment areas.

The bank’s alternative delivery systems also promote the availability of banking services to its entire customer base, including low- and moderate-income customers. The bank’s main alternative delivery systems including online banking, mobile banking, and 161 bank-owned ATMs. These services allow customers, including low- and moderate-income customers, to access banking services even if they do not reside near a First Merchants branch. The availability of these alternative delivery systems is consistent across all assessment areas.

Refer to the separate assessment area sections of this evaluation for more information on accessibility of bank delivery systems.

Changes in Branch Locations

To the extent changes have been made, the bank’s opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies or to low- and moderate-income individuals. Since the previous evaluation, First Merchants closed a considerable number of branches, consistent with nationwide trends in branch closure rates. As shown in the following table, the vast majority of these 32 branch closures were in middle- and upper-income census tracts. The bank closed three branches in moderate-income tracts and no branches in low-income tracts. As such, these closures did not have a significant adverse impact on the bank’s performance under this criterion given that the closures did not disproportionately affect the accessibility of delivery systems in low- and moderate-income areas.

Net Distribution of Branch Openings/Closings							
Assessment Area	# of Branch Openings	# of Branch Closings	Income Level of Census Tract (+/-)				
			Low	Moderate	Middle	Upper	N/A
Indianapolis MSA	1	8	+1	-2	-6	0	0
Indiana Non-MSA	0	9	0	-1	-5	-3	0
Muncie MSA	0	4	0	0	-2	-2	0
Lafayette MSA	0	0	0	0	0	0	0
Fort Wayne MSA	0	2	0	0	0	-1	-1
Chicago MSA	0	3	0	0	-1	-2	0
Monroe MSA	0	3	0	0	-3	0	0
Detroit MSA	0	1	0	0	0	-1	0
Columbus MSA	0	2	0	0	-1	-1	0
Cincinnati MSA	0	0	0	0	0	0	0
Total	1	32	+1	-3	-18	-10	-1

Additionally, the bank opened one office during the evaluation period. This new office is located in a low-income tract within a larger cluster of low- and moderate-income tracts several miles north of downtown Indianapolis. Given that this branch opening increased the availability of banking services in a particularly distressed area of Indianapolis, this branch opening positively affected bank performance under this criterion.

Refer to the separate assessment area sections of this evaluation for more information on the opening and closing of branches.

Reasonableness of Business Hours and Services

Services and business hours do not vary in a way that inconveniences portions of the assessment areas, particularly low- and moderate-income geographies and individuals. To the extent that services and hours vary among branches, these variances are minimal and do not disproportionately affect low- and moderate-income geographies or individuals. Refer to the separate assessment area sections of this evaluation for more information.

The bank also offers Individual Development Accounts (IDAs), which are particularly responsive to the needs of low- and moderate-income individuals. With these accounts, the bank matches customer deposits, helping low- and moderate-income customers build savings. Through this program, account holders are required to complete financial education training, which includes investing and saving for specific asset purchases. The bank offers IDAs throughout all of its assessment areas and opened 106 of these accounts during the evaluation period.

Community Development Services

The institution provided an adequate level of community development services. Throughout the evaluation period, bank employees provided 415 instances of financial expertise or technical assistance to community development-related organizations in the assessment areas. This level represents a modest increase from the previous evaluation period, during which the bank provided 374 qualified community development services. The bank's community development service performance is consistent with similarly situated banks whose performance was assessed as adequate.

The following table details First Merchants' community development services throughout all assessment areas since the previous evaluation. Many of the bank's community development services involve extensive employee involvement, such as serving as an officer or director of a community development organization. These types of services are counted as one service per calendar year but receive greater qualitative weight when arriving at overall performance conclusions.

Refer to the separate assessment area sections of this evaluation for more information.

Community Development Services by Assessment Area

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

Examiners did not identify any evidence of discriminatory or other illegal credit practices; therefore, this consideration did not affect the institution's overall CRA rating.

INDIANA

CRA RATING FOR INDIANA: SATISFACTORY

The Lending Test is rated: High Satisfactory

The Investment Test is rated: Outstanding

The Service Test is rated: Low Satisfactory

DESCRIPTION OF INSTITUTION'S OPERATIONS IN INDIANA

The Indiana rated area contains the largest portion of bank operations among the five rated areas. Of the bank's 106 office locations, 62 are located in Indiana. This number excludes additional offices located in the Indiana portions of the Chicago multistate MSA and Cincinnati MSA. As detailed previously in the Scope of Evaluation section, this rated area also contains approximately two-thirds of the bank's total deposits and lending activity. Within Indiana, the bank has delineated five separate assessment areas: Indianapolis MSA, Indiana Non-MSA, Muncie MSA, Lafayette MSA, and Fort Wayne MSA.

SCOPE OF EVALUATION – INDIANA

The scope of evaluation in the Indiana rated area is identical to the overall scope of evaluation for the institution. Examiners conducted full-scope reviews of the Indianapolis MSA and the Indiana Non-MSA assessment areas. Examiners conducted limited-scope reviews of the Muncie MSA, Lafayette MSA, and Fort Wayne MSA assessment areas. Of all of the bank's assessment areas, the Indianapolis MSA contains the largest proportion of bank offices and lending activity. As such, performance in this assessment area carried the most weight in arriving at overall conclusions for the Indiana rated area.

CONCLUSIONS ON PERFORMANCE CRITERIA IN INDIANA

LENDING TEST

The Lending Test rating is High Satisfactory for the Indiana rated area. Lending activity, community development lending, and innovative and flexible lending performance primarily support the High Satisfactory rating.

Lending Activity

Lending levels reflect excellent responsiveness to assessment area credit needs. The bank demonstrated excellent performance in both full-scope assessment areas. Lending levels have remained consistently high throughout the evaluation period. Refer to the separate assessment area sections of this evaluation for additional information, including market share analysis.

Geographic Distribution

The geographic distribution of loans reflects adequate penetration throughout the Indiana rated area. With respect to the full-scope assessment areas, the bank demonstrated good performance in the Indianapolis MSA assessment area and poor performance in the Indiana Non-MSA assessment area. Collectively, the limited scope areas were consistent with this conclusion. Refer to the separate assessment area sections of this evaluation for more detailed information.

Borrower Profile

The distribution of borrowers reflects good penetration among individuals of different income levels and business and farms of different sizes. The bank demonstrated good performance under this criterion in throughout its assessment areas. Refer to the separate assessment area sections of this evaluation for more detailed information.

Innovative or Flexible Lending Practices

First Merchants uses innovative and flexible lending practices in order to serve assessment area credit needs. All innovative and flexible loan programs described previously are offered throughout the Indiana rated area. As shown in the following table, the bank originated 2,241 loans totaling \$246.5 million through innovative and flexible programs during the evaluation period. Refer to the separate assessment area sections of this evaluation for more detailed information.

Innovative and Flexible Lending Programs – Indiana Rated Area			
Loan Type	Loan Program	Totals	
		#	\$(000s)
Home Mortgage	Next Horizon	647	89,058

Consumer	Unsecured Home Improvement	440	1,939
	Credit Creator	381	534
Totals		2,241	246,490
<i>Source: Bank Records</i>			

Community Development Loans

The institution made a relatively high level of community development loans. The bank originated 64 community development loans totaling \$243.0 million throughout the Indiana rated area, which represents slightly more than half of the bank’s total community development lending. The following table details the bank’s community development loans by assessment area and purpose. Refer to the separate assessment area sections of this evaluation for more information.

Community Development Lending by Assessment Area – Indiana Rated Area

INVESTMENT TEST

The Investment Test rating is Outstanding for the Indiana rated area. The bank's excellent level of qualified investments and good responsiveness to community development needs supports this rating. Performance was generally consistent across all assessment areas, with the strongest performance in the Indianapolis MSA assessment area, the most heavily weighted assessment area.

Investment and Grant Activity

The institution has an excellent level of qualified community development investments and grants. The bank made a total of \$121.8 million in qualified investments in the Indiana rated area, including prior period investments and qualified donations. In addition to investments within the assessment areas, the bank made investments totaling \$9.5 million that benefitted a broader statewide area. The following table details the bank's qualified investments and donations by assessment area and purpose. Refer to the separate assessment area sections of this evaluation for more information.

Qualified Investments and Donations by Assessment Area – Indiana Rated Area										
	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

Source: Bank Data

Responsiveness to Credit and Community Development Needs

The institution exhibits good responsiveness to credit and community economic development needs. First Merchants' qualified investments addressed identified needs throughout the assessment areas, supporting all four categories of community development. Refer to the separate assessment area sections of this evaluation for more information.

Community Development Initiatives

The institution occasionally uses innovative or complex investments to support community development initiatives. Some of the bank's investments exhibited complex characteristics. Refer to the separate assessment area sections of this evaluation for more information.

SERVICE TEST

The Service Test rating is Low Satisfactory for the Indiana rated area. Performance was generally consistent across all assessment areas, and the bank's performance under each Service Test criterion supports the overall rating.

Accessibility of Delivery Systems

Delivery systems are accessible to essentially all portions of the assessment areas. The bank's alternative delivery systems also promote the accessibility of bank services to low- and moderate-income individuals. Refer to the separate assessment area sections of this evaluation for more information.

Changes in Branch Locations

To the extent changes have been made, the institution's opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals. The bank closed a considerable number of branches in the Indiana rated area during the evaluation period; however, the vast majority of these closures were in middle- and upper-income census tracts and did not disproportionately affect low- and moderate-income areas.

Reasonableness of Business Hours and Services

Services and business hours do not vary in a way that inconveniences portions of the assessment areas, particularly low- and moderate-income geographies and individuals. Services and business hours are generally consistent across all office locations in the assessment areas, and nearly all offices offer Saturday hours and drive-up services. Any variations in services or hours are minor and do not predominantly affect low- and moderate-income areas.

Community Development Services

The institution provided an adequate level of community development services. Most of the bank’s community development services within this rated area were in the Indianapolis MSA assessment area. Of these services, most supported the provision of community services for low- and moderate-income individuals, as reflected in the following table.

Community Development Services by Assessment Area – Indiana Rated Area					
Assessment Area	Affordable Housing	Community Services	Economic Development	Revitalize or Stabilize	Totals
	#	#	#	#	#

<i>Source: Bank Records</i>					

INDIANAPOLIS, IN MSA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN INDIANAPOLIS, IN MSA

The Indianapolis MSA assessment area includes nine whole counties: Brown, Hamilton, Hancock, Hendricks, Johnson, Madison, Marion, Morgan, and Shelby. This area encompasses all of Indianapolis and most of the surrounding suburban areas. First Merchants operates 26 offices in this assessment area. Among all ten assessment areas, the bank’s performance in the Indianapolis MSA assessment area carried the most weight in arriving at overall conclusions. This determination is based on the fact that more of the bank’s operations and lending activity are in this assessment area than any other assessment area.

Economic and Demographic Data

The assessment area contains 380 census tracts across the nine counties. According to 2015 ACS data, these tracts reflect the following income designations:

- 67 low-income tracts
- 103 moderate-income tracts
- 120 middle-income tracts
- 88 upper-income tracts
- 2 tracts with no income designation

A substantial majority of the assessment area’s low- and moderate-income tracts are in Marion County, which includes Indianapolis. The second largest cluster of low- and moderate-income tracts is in Anderson, which is in Madison County.

The following table details select economic and demographic characteristics of the assessment area.

Demographic Information of the Assessment Area						
Assessment Area: Indianapolis MSA

() The NA category consists of geographies that have not been assigned an income classification.*

Unemployment rates in the assessment area spiked at the beginning of the COVID-19 pandemic. Since then, according to United States Bureau of Labor Statistics data, unemployment rates have nearly returned to pre-pandemic levels. As of June 2021, the average unemployment rate across all nine counties was 4.0 percent. Unemployment levels remain elevated in Marion and Madison counties, at 5.4 percent and 5.6 percent, respectively.

According to Moody’s Analytics, the Indianapolis MSA economy is recovering from the pandemic at a steady pace. Strengths in the manufacturing, healthcare, pharmaceutical, and construction industries have supported recent job growth. The Indianapolis area continues to maintain a well-diversified local economy. Major employers include Indiana University Health, St. Vincent Hospitals and Health Services, Eli Lilly and Company, and FedEx.

The median family income level is used to analyze home mortgage loans under the Borrower Profile criterion. The table below presents the Indianapolis MSA median family income levels for 2019 and 2020, as updated by the Federal Financial Institutions Examination Council (FFIEC).

Median Family Income Ranges – Indianapolis MSA (26900)				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
2019 (\$77,800)	<\$38,900	\$38,900 to <\$62,240	\$62,240 to <\$93,360	≥\$93,360
2020 (\$79,600)	<\$39,800	\$39,800 to <\$63,680	\$63,680 to <\$95,520	≥\$95,520
<i>Source: FFIEC</i>				

Competition

The assessment area is highly competitive in the market for financial services. According to FDIC Deposit Market Share data as of June 30, 2021, 41 banks operated 470 offices in the assessment area. Of these banks, First Merchants ranked ninth, with a deposit market share of 4.2 percent.

According to 2020 HMDA aggregate data, First Merchants ranked 19th with a market share of 1.3 percent by number of loans among institutions that reported home mortgage originations or purchases in the assessment area. Several large nonbank mortgage lenders dominate the market for home mortgage loans. According to 2019 CRA aggregate data, the bank ranked 13th with a market share of 1.6 percent for small business loans, and 4th with a market share of 6.7 percent for small farm loans. Small business and small farm market shares by dollar volume were notably higher, at 6.1 percent and 16.5 percent, respectively.

Community Contacts

As part of the evaluation process, examiners contact third parties active in the assessment area to assist in identifying the credit and community development needs. This information helps determine whether local financial institutions are responsive to those needs. It also shows what credit and community development opportunities are available.

Examiners contacted a representative of a community development-related organization that operates in the assessment area. The contact cited affordable housing as a significant need in the assessment area. The contact said that in many cases, local banks offer products, particularly home mortgage products, that meet the needs of low- and moderate-income families. However, banks often struggle to reach these potential borrowers and successfully market their products to them. As such, opportunities exist for local banks to conduct more extensive outreach in low- and moderate-income communities. The contact also identified small business lending as an opportunity for increased bank involvement. The contact provided examples of local small businesses, particularly start-ups and minority- or women-owned businesses, that struggle to obtain financing from local banks.

Credit and Community Development Needs and Opportunities

Considering information from the community contact, bank management, and demographic and economic data, examiners determined that affordable housing is a primary need in the assessment area, as well as loan programs tailored to the needs of low- and moderate-income borrowers. Support for small businesses remains critical, especially given the challenges associated with the COVID-19 pandemic. Opportunities for revitalization and stabilization continue to exist in the

assessment area's low- and moderate-income census tracts, particularly in Indianapolis and Anderson. Finally, with more than 40 percent of assessment area households considered low- or moderate-income, community services for low- and moderate-income individuals remains a significant need.

CONCLUSIONS ON PERFORMANCE CRITERIA IN INDIANAPOLIS, IN MSA

LENDING TEST

First Merchants demonstrated good performance under the Lending Test in the Indianapolis MSA assessment area. The bank's performance under each of the Lending Test criteria supports this conclusion. The bank's performance was strongest under the lending activity, borrower profile, innovative and flexible lending, and community development lending criteria.

Lending Activity

Lending levels reflect excellent responsiveness to assessment area credit needs. Home mortgage lending volumes in this assessment area have increased since the previous evaluation, even as the total number of bank offices declined. Additionally, with respect to closed-end mortgage lending, First Merchants' lending volumes increased significantly from 2019 to 2020, meeting increased consumer demand for home mortgage products.

Additionally, First Merchants is a leading small business lender in this assessment area. According to 2019 aggregate CRA data, First Merchants was a top five small business lender in the assessment area in terms of total dollar volume. First Merchants' average small business loan amount, at \$191,000, was also significantly higher than many other leading small business lenders, including many large national banks. With respect to small farm lending, First Merchants was the second ranked lender in the assessment area by dollar volume among institutions that report CRA data.

The following table details First Merchants' 2019 and 2020 originations by loan type in the Indianapolis assessment area.

Lending Activity – Indianapolis MSA				
Loan Product	2019 #	2019 \$(000)	2020 #	2020 \$(000)
Closed-End Home Mortgage	872	157,574	1,289	238,447

TOTAL	2,212	342,816	3,595	545,295
<i>Source: Bank Data</i>				

Geographic Distribution

The geographic distribution of loans reflects good penetration throughout the assessment area. While small business and open-end home mortgage lending performance was adequate, excellent

closed-end home mortgage lending performance supports the overall conclusion. Additionally, although the bank’s small farm lending performance in this assessment area was poor, given the low volume of small farm lending, this product carried little weight and did not have a significant impact on overall conclusions.

Closed-End Home Mortgage Loans

The geographic distribution of closed-end home mortgage loans reflects excellent penetration throughout the assessment area. In both 2019 and 2020, First Merchants’ lending in both low- and moderate-income tracts significantly exceeded aggregate lending levels. Notably, in 2020, the bank’s lending in low-income tracts was double the aggregate level, and lending in moderate-income tracts was significantly higher than aggregate. The following table details the geographic distribution of closed-end home mortgage lending.

Geographic Distribution of Closed-End Home Mortgage Loans

Open-End Home Mortgage Loans

The geographic distribution of open-end home mortgage loans reflects adequate penetration throughout the assessment area. The bank’s open-end lending in low-income tracts slightly trailed aggregate data. Lending in moderate-income tracts was stronger, with the bank’s performance nearly

matching the aggregate levels in both 2019 and 2020. Overall, this distribution of lending reflects adequate performance. The following table details the geographic distribution of open-end home mortgage lending.

Geographic Distribution of Open-End Home Mortgage Loans						
Assessment Area: Indianapolis MSA						
Tract Income Level	% of Owner-Occupied Housing Units	Aggregate Performance % of #	#	%	\$(000s)	%

Small Business Loans

The geographic distribution of small business loans reflects adequate penetration throughout the assessment area. The bank’s lending in low- and moderate-income tracts in 2019 was comparable to aggregate data. Lending performance improved incrementally in 2020 in both low- and moderate-income tracts. Given that the bank’s lending distribution was similar to aggregate data and was relatively consistent to the corresponding business demographic comparisons, the geographic distribution of loans reflects adequate performance. The following table details the geographic distribution of small business lending.

Geographic Distribution of Small Business Loans						
Assessment Area: Indianapolis MSA						
Tract Income Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%

Small Farm Loans

The geographic distribution of small farm loans reflects poor penetration throughout the assessment area. As shown in the following table, across both years, the bank originated only two small farm loans in moderate-income tracts and no loans in low-income tracts. However, given the small number of assessment area farms located in low- and moderate-income tracts, as well as the bank’s relatively low volume of small farm lending in this assessment area, performance under this criterion did not have a material impact on overall assessments. The following table details the geographic distribution of small farm lending.

Geographic Distribution of Small Farm Loans						
Assessment Area: Indianapolis MSA						
Tract Income Level	% of Farms	Aggregate Performance % of #	#	%	\$(000s)	%

Borrower Profile

The distribution of borrowers reflects good penetration to individuals of different income levels and business and farms of different sizes. Excellent performance of closed-end home mortgage lending and small farm lending, combined with adequate results in the open-end home mortgage lending and good performance of small business lending, primarily support this conclusion.

Closed-End Home Mortgage Loans

The distribution of closed-end home mortgage loans reflects excellent penetration to retail customers of different income levels. As shown in the following table, the bank's lending to low-income borrowers was more than double the aggregate levels in both 2019 and 2020. Lending to moderate-income borrowers was similarly strong, with the bank's performance exceeding aggregate levels by more than 7.0 percentage points in 2019 and more than 15.0 percentage points in 2020. These levels of lending reflect excellent performance under this criterion.

Distribution of Closed-End Home Mortgage Loans by Borrower Income Level						
Assessment Area: Indianapolis MSA

Open-End Home Mortgage Loans

The distribution of open-end home mortgage loans reflects adequate penetration to retail customers of different income levels. As shown in the following table, the bank's lending to low-income borrowers was slightly below aggregate levels in both years. Conversely, lending to moderate-income borrowers was slightly above aggregate in both years. Overall, these levels of lending reflect adequate performance.

Distribution of Open-End Home Mortgage Loans by Borrower Income Level						
Assessment Area: Indianapolis MSA

Small Business Loans

The distribution of small business loans reflects good penetration to businesses of different sizes. Approximately half of the bank's small business loans in this assessment area were to businesses with revenues of \$1 million or less. As shown in the following table, the bank's level of lending to these businesses exceeded aggregate data by more than 10.0 percentage points in 2019, the most recent year for which aggregate data was available.

Distribution of Small Business Loans by Gross Annual Revenue Category						
Assessment Area: Indianapolis MSA

Small Farm Loans

The distribution of small farm loans reflects excellent penetration to farms of different sizes. In 2019, all but one of the bank's small farm loans in this assessment area were to farms with revenues of \$1 million or less, which significantly exceeds aggregate data. Although this percentage fell in 2020, lending to farms with revenues of \$1 million or less still represented more than three quarters of total small farm lending in this assessment area in 2020. These levels of lending reflect excellent performance under this criterion. The following table details the bank's small farm lending by revenue level.

Distribution of Small Farm Loans by Gross Annual Revenue Category						
Assessment Area: Indianapolis MSA

Innovative or Flexible Lending Practices

The bank makes extensive use of innovative and flexible lending practices in order to serve assessment area credit needs. As shown in the following table, the bank funded 1,118 innovative and flexible loans totaling more than \$165 million during the evaluation period, representing 57.6 percent of the total flexible lending originated by the institution during the evaluation period. These loans provided credit to individuals and businesses that may not have otherwise qualified for traditional bank financing.

Community Development Loans

The institution made a relatively high level of community development loans. The bank originated more than \$108 million in community development loans in this assessment area, supporting all four community development categories. Among all ten assessment areas, community development

lending volume was highest in this assessment area, representing 22.7 percent of the bank’s total qualified lending. Fourteen of these community development loans totaling \$34.5 million were PPP loans.

The following table details the bank’s community development lending in this assessment area by year and purpose.

Source: Bank Records

Examples of the bank’s community development loans in this assessment area are as follows:

- A \$4.8 million loan provided funding for a new business structure in a low-income census tract in a Qualified Opportunity Zone. The land used was a brownfield, so this construction project resulted in the cleanup of the site. It contributed to the revitalization and stabilization of the census tract.
- A \$13.0 million loan funded the construction of a 210-unit multi-family affordable housing community in Indianapolis. These affordable housing units are designated for low- and moderate-income persons.
- A \$3.5 million loan funded the purchase and rehabilitation of an affordable housing community. The 131 units are designated for low- and moderate-income persons.

INVESTMENT TEST

First Merchants demonstrated outstanding performance under the Investment Test in the Indianapolis MSA assessment area. The bank’s excellent level of qualified investments and good responsiveness to community development needs support this conclusion.

Investment and Grant Activity

The institution made an excellent level of community development investments. Investments in this assessment area represented 26.0 percent of the bank’s total investment activity by dollar volume, which is consistent with the proportion of overall bank operations in this assessment area. Most of these investments were new since the previous evaluation. Investments supported all four community development categories, with the largest share of investments supporting affordable housing. The following table details the qualified investments and donations in this assessment area by year and purpose.

Qualified Investments – Indianapolis MSA										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

<i>Source: Bank Data</i>										

Examples of the bank’s qualified investments in this assessment area are as follows:

- Six bonds totaling \$7.4 million provided funding for several school building projects in a school district where a majority of students are low- or moderate-income.
- The bank invested \$7.5 million in a fund that provides growth capital to companies in order to revitalize distressed census tracts.
- In 2020, the bank donated a total of \$244,500 to 90 separate organizations responsive to the needs of low- and moderate-income individuals affected by COVID-19. Examples include donations to organizations providing housing, food, and other essential services.

Responsiveness to Credit and Community Development Needs

The institution exhibits good responsiveness to credit and community development needs. Investments supported all four community development categories, all of which were identified needs in the assessment area.

Community Development Initiatives

The institution occasionally uses innovative or complex investments to support community development initiatives. Some of the bank’s investments exhibited complex characteristics, such as investments in Small Business Investment Companies that support economic development by financing small businesses.

SERVICE TEST

First Merchants demonstrated adequate performance under the Service Test in the Indianapolis MSA assessment area. Performance under each Service Test criterion supports this conclusion.

Accessibility of Delivery Systems

Delivery systems are reasonably accessible to essentially all portions of the assessment area. As shown in the following table, the bank operates eight offices in low- or moderate-income census

tracts. The percentage of offices in both low- and moderate-income tracts is comparable to the percentage of assessment area residents that live in those tract income categories. Additionally, the bank maintains three ATMs in low-income tracts and seven ATMs in moderate-income tracts throughout the assessment area.

Branch Distribution by Geography Income Level – Indianapolis MSA								
Tract Income Level	Offices of Other Lenders		Census Tracts		Population		Bank Branches	
	#	%	#	%	#	%	#	%
Low	34	7.2	67	17.6	212,040	11.4	3	11.5
Moderate	130	27.4	103	27.1	420,208	22.7	5	19.2
Middle	140	29.5	120	31.6	599,382	32.4	11	42.3

Source: 2015 ACS Data, 2020 Peer Deposit Data, and Bank Records. Due to rounding, totals may not equal 100.0.

Several of the bank’s office locations in Indianapolis and Anderson positively affected bank performance under this criterion. Specifically, the bank’s 38th Street office in Indianapolis, which opened in 2020, effectively serves a predominantly low- and moderate-income area. The office is located in a low-income area near the center of a large cluster of low- and moderate-income tracts several miles north of downtown Indianapolis. Additionally, the bank’s office locations in Anderson effectively serve a predominantly low- and moderate-income area. The downtown Anderson area contains a cluster of 13 low- and moderate-income tracts, and First Merchants maintains three offices in or immediately adjacent to these tracts.

Changes in Branch Locations

To the extent changes have been made, the institution’s opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals. During the evaluation period, the bank closed eight offices and opened one office in the assessment area. Of the eight closures, two offices were located in moderate-income tracts, one in Hamilton County and one in Madison County. As such, the closures of these offices negatively impacted the accessibility of banking service in these moderate-income areas.

However, the opening of a new branch in a low-income area of Indianapolis helped to offset the negative impact of the moderate-income branch closures. The new branch, which is located on 38th Street several miles north of downtown Indianapolis, is located near the center of a large cluster of low- and moderate-income tracts. Examiners considered the opening of this branch particularly beneficial and responsive to the needs of low- and moderate-income individuals in this distressed portion of Indianapolis.

Reasonableness of Business Hours and Services

Services and business hours do not vary in a way that inconveniences portions of the assessment area, particularly low- and moderate-income geographies and individuals. Services and business hours are generally consistent across all office locations in this assessment area, and nearly all offices offer Saturday hours and drive-up services. Any variations in services or hours are minor and do not predominantly affect low- and moderate-income areas.

Community Development Services

The bank provides an adequate level of community development services. During the evaluation period, the bank performed 70 services in this market, representing 16.7 percent of its total qualified services. Most of these activities supported the provision of community services for low- and moderate-income individuals. The following table details the bank’s community development services in this assessment area by year and purpose.

Community Development Services – Indianapolis MSA					
Activity Year	Affordable Housing	Community Services	Economic Development	Revitalize or Stabilize	Totals
	#	#	#	#	#
2018	0	11	0	0	11
2019	5	19	1	0	25
2020	7	13	2	0	22
YTD 2021	1	7	4	0	12
Total	13	50	7	0	70
<i>Source: Bank Records</i>					

Examples of the bank’s community development services in this assessment area are as follows:

- A bank officer serves on an affordable housing committee for a development corporation to promote affordable housing in the assessment area.
- A bank officer serves on the board of an economic development entity promoting small business growth.
- A bank officer serves on the board of a homeless shelter for women and children.

NONMETROPOLITAN INDIANA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN NONMETROPOLITAN INDIANA

The Indiana Non-MSA assessment area includes 14 whole counties: Adams, Clinton, Fayette, Henry, Huntington, Jay, Marshall, Miami, Montgomery, Randolph, Wabash, Wayne, Wells, and White. These counties are mostly contiguous and located throughout northern and central Indiana; therefore, these areas are presented collectively as one assessment area for purposes of this evaluation. First Merchants operates 16 offices in this assessment area.

Economic and Demographic Data

The assessment area contains 130 census tracts across the 14 counties. According to 2015 ACS data, these tracts reflect the following income designations:

- 1 low-income tracts
- 26 moderate-income tracts
- 90 middle-income tracts
- 13 upper-income tracts

Wayne County, which includes Richmond, has the assessment area’s only low-income tract and nearly a quarter of the assessment area’s moderate-income tracts. The following table details select economic and demographic characteristics of the assessment area.

Demographic Information of the Assessment Area						
Assessment Area: Indiana Non-MSA

According to United States Bureau of Labor Statistics data, unemployment rates throughout the assessment area have declined substantially since the onset of the COVID-19 pandemic. As of June 2021, county unemployment rates averaged 4.0 percent across the 14 assessment area counties. Unemployment rates remain most elevated in Miami County (6.1 percent) and Fayette County (5.8 percent).

The assessment area’s economy relies heavily on small business and agriculture. Various larger employers also operate throughout the assessment area. For example, Wayne County, Marshall County, and Henry County have the assessment area’s largest labor forces. Major employers in

those counties include Reid Health (Wayne County); wire manufacturer Southwire (Marshall County); and manufacturer Draper, Inc. (Henry County). With respect to agriculture, according to the most recent Census of Agriculture data, assessment area farms had annual sales of over \$2.5 billion in 2017.

The table below presents the Indiana Non-MSA median family income levels for 2019 and 2020, as updated by the FFIEC.

Median Family Income Ranges – Indiana Non-MSA (99999)				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
2019 (\$61,200)	<\$30,600	\$30,600 to <\$48,960	\$48,960 to <\$73,440	≥\$73,440
2020 (\$63,800)	<\$31,900	\$31,900 to <\$51,040	\$51,040 to <\$76,560	≥\$76,560
<i>Source: FFIEC</i>				

Competition

The assessment area is moderately competitive in the market for financial services. According to FDIC Deposit Market Share data as of June 30, 2021, 40 banks operated 152 offices in the assessment area. Of these banks, First Merchants ranked first, with a deposit market share of 14.1 percent.

According to 2020 HMDA aggregate data, First Merchants ranked second with a market share of 5.1 percent by number of loans among institutions that reported home mortgage originations or purchases in the assessment area. The top ranked lender in the assessment area is a large nonbank mortgage lender. According to 2019 CRA aggregate data, the bank ranked fifth with a market share of 5.3 percent by number for small business loans, and third with a market share of 11.7 percent by number for small farm loans. Small business and small farm market shares by dollar volume were notably higher, at 14.8 percent and 19.3 percent, respectively.

Community Contacts

Examiners reviewed a recent contact with a local economic development organization active in the assessment area. The contact noted that the area’s economy continues to recover from the challenges associated with the COVID-19 pandemic. The contact identified small business start-up financing as a credit need in the area. The contact also stated that local banks perform well in meeting local credit needs, including through SBA and USDA financing for local small businesses and farms.

Credit and Community Development Needs and Opportunities

Examiners determined that support for small businesses and farms is a primary need in this assessment area, especially in light of challenges associated with the COVID-19 pandemic. Programs to support low- and moderate-income families, including support for affordable housing initiatives, also remain in demand.

CONCLUSIONS ON PERFORMANCE CRITERIA IN NONMETROPOLITAN INDIANA

LENDING TEST

First Merchants demonstrated good performance under the Lending Test in the Indiana Non-MSA assessment area. The bank’s performance under each of the Lending Test criteria supports this conclusion. The bank’s performance under the geographic distribution criterion was poor; however, performance was stronger under all other Lending Test criteria.

Lending Activity

Lending levels reflect excellent responsiveness to assessment area credit needs. With respect to closed-end mortgage lending, First Merchants’ lending volumes increased significantly from 2019 to 2020, meeting increased consumer demand for home mortgage products.

Additionally, First Merchants is a leading small business lender in this assessment area. According to 2019 aggregate CRA data, First Merchants was the top small business lender in the assessment area in terms of total dollar volume. First Merchants average small business loan amount, at \$129,000, was also significantly higher than other leading small business lenders, including many large national banks. With respect to small farm lending, First Merchants was the second ranked lender in the assessment area by dollar volume among institutions that report CRA data.

The following table details First Merchants’ 2019 and 2020 originations by loan type in the Indiana Non-MSA assessment area.

Lending Activity – Indiana Non-MSA				
Loan Product	2019 #	2019 \$(000)	2020 #	2020 \$(000)
Closed-End Home Mortgage	440	52,187	541	74,051
Open-End Home Mortgage	534	33,816	458	32,105
<i>Subtotal: Home Mortgage</i>	974	86,003	999	106,156

Small Farm	211	31,780	248	32,754
TOTAL	1,504	159,004	2,017	214,372
<i>Source: Bank Data</i>				

Geographic Distribution

The geographic distribution of loans reflects poor penetration throughout the assessment area. Poor performance with respect to closed-end home mortgage lending, open-end home mortgage lending, and small business lending primarily support this conclusion.

Closed-End Home Mortgage Loans

The geographic distribution of closed-end home mortgage loans reflects poor penetration throughout the assessment area. In particular, the bank’s lending performance in moderate-income tracts lagged aggregate levels by several percentage points in both 2019 and 2020. The following table details the geographic distribution of closed-end home mortgage lending.

Geographic Distribution of Closed-End Home Mortgage Loans						
Assessment Area: Indiana Non-MSA

Open-End Home Mortgage Loans

The geographic distribution of open-end home mortgage loans reflects poor penetration throughout the assessment area. As with closed-end lending, the bank's lending performance in moderate-income tracts lagged aggregate levels by several percentage points in both 2019 and 2020. The following table details the geographic distribution of open-end lending.

Geographic Distribution of Open-End Home Mortgage Loans						
Assessment Area: Indiana Non-MSA						
Tract Income Level	% of Owner-Occupied Housing Units	Aggregate Performance % of #	#	%	\$(000s)	%

<i>Due to rounding, totals may not equal 100.0%</i>						

Small Business Loans

The geographic distribution of small business loans reflects poor penetration throughout the assessment area. The bank’s lending performance in moderate-income tracts lagged aggregate data by nearly 8.0 percentage points in 2019, the most recent year for which aggregate data was available. Also, the results for both years significantly trailed the corresponding business demographic in that income segment. The following table details the geographic distribution of small business lending.

Geographic Distribution of Small Business Loans						
Assessment Area: Indiana Non-MSA						
Tract Income Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%

Small Farm Loans

The geographic distribution of small farm loans reflects adequate penetration throughout the assessment area. Very few assessment area farms are located in the assessment area’s low- and moderate-income census tracts. The bank’s lending in moderate-income tracts was nearly identical to aggregate in 2019 and increased in 2020. The following table details the geographic distribution of small farm lending.

Geographic Distribution of Small Farm Loans						
Assessment Area: Indiana Non-MSA						
Tract Income Level	% of Farms	Aggregate Performance % of #	#	%	\$(000s)	%

Borrower Profile

The distribution of borrowers reflects good penetration to individuals of different income levels and business and farms of different sizes. The bank demonstrated excellent performance in small business and small farm lending, and good performance in the more heavily weighted closed-end and open-end home mortgage lending.

Closed-End Home Mortgage Loans

The distribution of closed-end home mortgage loans reflects good penetration to retail customers of different income levels. As shown in the following table, the bank's lending to both low- and moderate-income borrowers was either in line with or exceeded aggregate data in both 2019 and 2020. Furthermore, the bank's lending performance in both of these income categories increased from 2019 to 2020. This distribution of lending reflects good performance.

Distribution of Closed-End Home Mortgage Loans by Borrower Income Level

Open-End Home Mortgage Loans

The distribution of open-end home mortgage loans reflects good penetration to retail customers of different income levels. As shown in the following table, and as with close-end home mortgage lending, the bank's open-end lending to both low- and moderate-income borrowers was either in line with or exceeded aggregate data in both 2019 and 2020, reflecting good performance under this criterion.

Distribution of Open-End Home Mortgage Loans by Borrower Income Level						
Assessment Area: Indiana Non-MSA

Small Business Loans

The distribution of small business loans reflects excellent penetration to businesses of different sizes. In 2019, the most recent year for which aggregate data was available, the bank's lending to businesses with revenues of \$1 million or less was substantially higher than the aggregate level. Performance was similarly strong in 2020 when taking into account the high number of PPP loans for which revenues were not reported. When excluding these loans, the bank's lending to businesses with revenues of \$1 million or less was nearly identical to the 2019 level.

Distribution of Small Business Loans by Gross Annual Revenue Category						
Assessment Area: Indiana Non-MSA

Small Farm Loans

The distribution of small farm loans reflects excellent penetration to farms of different sizes. In 2019, the most recent year for which aggregate data was available, the bank's performance was substantially higher than the aggregate level. The following table details small farm lending by borrower income category.

Distribution of Small Farm Loans by Gross Annual Revenue Category

Innovative or Flexible Lending Practices

The bank uses innovative and flexible lending practices in order to serve assessment area credit needs. As shown in the following table, the bank funded over 500 innovative and flexible loans totaling more than \$26 million during the evaluation period, representing 9.3 percent of the bank's total. These loans provided credit to individuals and businesses that may not have otherwise qualified for traditional bank financing.

<i>Source: Bank Records</i>										

Community Development Loans

The institution made a relatively high level of community development loans. The bank originated nearly \$16 million in community development loans in this assessment area, primarily supporting affordable housing initiatives and representing 3.3 percent of its total qualified lending. Two of these community development loans totaling \$5.9 million were PPP loans.

The following table details the bank’s community development lending in this assessment area by year and purpose.

Community Development Lending – Indiana Non-MSA										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)

Total	2	9,899	0	0	0	0	2	5,859	4	15,758
<i>Source: Bank Records</i>										

Examples of the bank’s community development loans in this assessment area are as follows:

- A \$9.0 million loan funded the rehabilitation of a 48-unit multi-family affordable housing community and the rehabilitation of a building in which 16 new affordable housing units were created. These affordable housing units are designated as housing for low-income persons.
- An \$899,000 loan assisted in the construction of a 100-unit affordable housing development. This participation loan helped to create housing for low-income persons.
- The bank funded a PPP loan for \$4.2 million that assisted a business located in a moderate-income census tract, supporting revitalization and stabilization of that census tract.

INVESTMENT TEST

First Merchants demonstrated good performance under the Investment Test in the Indiana Non-MSA assessment area. The bank’s relatively high level of qualified investments supports this conclusion.

Investment and Grant Activity

The institution made a relatively high level of community development investments. Investments in this assessment area represented 5.8 percent of the bank’s total investment activity by dollar volume, which is less than the proportion of overall bank operations in this assessment area. However, examiners considered the fact that qualified investment opportunities are relatively less available in this assessment area compared to the more urban assessment areas.

All of the investments in this assessment area were new since the previous evaluation. Investments supported affordable housing, community services for low- and moderate-income individuals, and revitalization of low- and moderate-income areas. The following table details the qualified investments and donations in this assessment area by year and purpose.

Qualified Investments – Indiana Non-MSA										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

Total	1	3,000	9	3,996	0	0	2	4,675	12	11,671
<i>Source: Bank Data</i>										

Examples of the bank’s qualified investments in this assessment area are as follows:

- Nine bonds totaling \$4.0 million provided funding for school buildings in two districts where a majority of students are low- or moderate-income.
- Two bonds totaling \$4.7 million provided funding to revitalize a moderate-income Tax Increment Financing district to purchase land, fund road improvements, and fund building construction.

Responsiveness to Credit and Community Development Needs

The institution exhibits adequate responsiveness to credit and community development needs. Examiners identified affordable housing as a need in this assessment area, and the bank’s investments supported affordable housing initiatives.

Community Development Initiatives

The institution rarely uses innovative or complex investments to support community development initiatives. Most of the bank’s investments in this assessment area were standard investment vehicles, such as municipal bonds.

SERVICE TEST

First Merchants demonstrated reasonable performance under the Service Test in the Indiana Non-MSA assessment area. Performance under each Service Test criterion supports this conclusion.

Accessibility of Delivery Systems

Delivery systems are reasonably accessible to essentially all portions of the assessment area. As shown in the following table, the bank operates three of its sixteen offices in moderate-income tracts, which slightly exceeds the percentage of assessment area residents that live in those tracts. The bank does not maintain any offices in low-income tracts, but this is reasonable given that the

14-county assessment area contains only one low-income tract. Furthermore, the bank operates five ATMs in moderate-income tracts in this assessment area.

Branch Distribution by Geography Income Level – Indiana Non-MSA								
Tract Income Level	Offices of Other Lenders		Census Tracts		Population		Bank Branches	
	#	%	#	%	#	%	#	%

Total	161	100.0	130	100.0	497,863	100.0	16	100.0

Source: 2015 ACS Data, 2020 Peer Deposit Data, and Bank Records. Due to rounding, totals may not equal 100.0.

Changes in Branch Locations

To the extent changes have been made, the institution’s opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals. The bank closed nine offices in this assessment area since the previous evaluation. However, these closed offices were almost entirely in middle- and upper-income tracts, with only one closed-office in a moderate-income tract. As such, the closure of these offices did not disproportionately affect low- and moderate-income areas.

Reasonableness of Business Hours and Services

Services and business hours do not vary in a way that inconveniences portions of the assessment area, particularly low- and moderate-income geographies and individuals. All of the offices offer Saturday hours, and nearly all offices have drive-up facilities. Any variations in services or hours are minor and do not predominantly affect low- and moderate-income areas.

Community Development Services

The bank provided an adequate level of community development services. Most of these activities supported the provision of community services for low- and moderate-income individuals. The following table details the bank’s community development services in this assessment area by year and purpose, which represent 7.4 percent of the institution’s total qualified services.

Community Development Services – Indiana Non-MSA					
Activity Year	Affordable Housing	Community Services	Economic Development	Revitalize or Stabilize	Totals
	#	#	#	#	#
2018	0	2	0	0	2
2019	2	6	0	0	8
2020	3	7	3	0	13
YTD 2021	1	3	4	0	8
Total	6	18	7	0	31
<i>Source: Bank Records</i>					

Examples of the bank’s community development services in this assessment area are as follows:

- A bank officer serves on the board of an economic development entity, which promotes economic development efforts in a local community.
- A bank officer serves on the board of an entity providing services to low- and moderate-income senior citizens, including food and transportation.
- A bank officer serves as treasurer of an entity providing homeownership opportunities to low-income persons.

OTHER INDIANA ASSESSMENT AREAS – Limited-Scope Reviews

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE LIMITED-SCOPE REVIEW ASSESSMENT AREAS

The following table summarizes the conclusions for the three Indiana assessment areas reviewed using limited-scope examination procedures. Examiners drew conclusions regarding the institution’s CRA performance from reviewing available facts and data, including performance figures, aggregate lending data comparisons, and demographic information. Performance in each limited-scope assessment area was generally consistent with bank performance in the two full-scope Indiana assessment areas. These conclusions did not alter the bank’s overall performance rating.

Assessment Area	Lending Test	Investment Test	Service Test
Muncie, IN MSA	Consistent	Consistent	Consistent
Lafayette, IN MSA	Consistent	Consistent	Consistent
Fort Wayne, IN MSA	Consistent	Below	Consistent

Facts and data that support conclusions for the limited-scope assessment areas are included in this section, beginning with a summary of First Merchants’ operations and activities in each area, followed by geographic distribution and borrower profile tables by loan type. Additional demographic data and market share information for the limited-scope assessment areas is included in the appendices.

Muncie, IN MSA

The Muncie MSA assessment area includes all of Delaware County, Indiana. First Merchants operates six offices in this assessment area, including the bank's main office in Muncie. Branch distribution and alternative delivery systems in this assessment area are consistent with overall bank performance. Service hours and loan and deposit products are convenient to the area, including low- and moderate-income geographies and individuals. The table below summarizes the bank's lending and community development activities in this assessment area during the evaluation period.

Activity	#	\$

CHICAGO, IL-IN MULTISTATE MSA – Full-Scope Review

CRA RATING FOR CHICAGO MULTISTATE MSA: SATISFACTORY

The Lending Test is rated: High Satisfactory

The Investment Test is rated: Outstanding

The Service Test is rated: Low Satisfactory

DESCRIPTION OF INSTITUTION’S OPERATIONS IN CHICAGO MULTISTATE MSA

The Chicago MSA assessment area includes portions of Illinois and Indiana. In Illinois, the assessment area includes two partial counties: Cook and DuPage. The bank includes roughly the southern third of Cook County in the assessment area, with 87th Street in Chicago essentially serving as the northern boundary of this area. The bank includes the southeastern corner of DuPage County in the assessment area. In Indiana, the bank includes three full counties: Jasper, Lake, and Porter. First Merchants operates 18 offices in this assessment area.

Of First Merchants’ 10 assessment areas, this is the only one that includes partial counties. Examiners determined that the assessment area appropriately captures all bank offices and a substantial portion of the bank’s lending activity within the Chicago MSA. Additionally, the assessment area does not arbitrarily exclude low- or moderate-income census tracts. Of the 248

census tracts within the Cook County portion of the assessment area, a majority of these are low- and moderate-income. This portion of the county has a higher percentage of low- and moderate-income census tracts than Cook County as a whole (50.4 percent vs. 48.1 percent). Furthermore, DuPage County as a whole consists almost entirely of middle- and upper-income census tracts, and the assessment area does not arbitrarily exclude low- or moderate-income areas in that county.

Economic and Demographic Data

This multistate assessment area contains 450 census tracts. According to 2015 ACS data, these tracts reflect the following income designations:

- 58 low-income tracts
- 122 moderate-income tracts
- 153 middle-income tracts
- 113 upper-income tracts
- 4 tracts with no income designation

Nearly all of the low- and moderate-income tracts in this assessment area are located in southern Cook County and northern Lake County. The following table details select economic and demographic characteristics of the assessment area.

According to Moody’s Analytics, the Chicago area economy has experienced favorable job growth trends in 2021, and single-family housing construction continues to pick up pace. Major employers in the assessment area include Chicago Public Schools, Advocate Health Care System, and ArcelorMittal. However, unemployment levels remain elevated, especially in Cook County and Lake County, both of which have unemployment rates near 8.0 percent as of mid-2021. In particular, the Gary area has struggled to recover fully from the effects of the pandemic.

The table below presents the Chicago MSA median family income levels for 2019 and 2020, as updated by the FFIEC. Although analyzed as one single multistate assessment area, the assessment area includes portions of two separate metropolitan divisions: Chicago-Naperville-Evanston, Illinois, and Gary, Indiana. The FFIEC separately estimates median family income levels for each of these metropolitan divisions; therefore, for each loan analyzed under the Borrower Profile criterion, examiners used the applicable median family income level depending on where the loan was located. For example, loans in Cook County were compared to the median family income level for the Chicago-Naperville-Evanston, Illinois metropolitan division.

Median Family Income Ranges – Chicago MSA				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
Chicago-Naperville-Evanston, IL Median Family Income (16984)				
2019 (\$82,000)	<\$41,000	\$41,000 to <\$65,600	\$65,600 to <\$98,400	≥\$98,400
2020 (\$84,800)	<\$42,400	\$42,400 to <\$67,840	\$67,840 to <\$101,760	≥\$101,760
Gary, IN Median Family Income (23844)				
2019 (\$72,700)	<\$36,350	\$36,350 to <\$58,160	\$58,160 to <\$87,240	≥\$87,240
2020 (\$74,600)	<\$37,300	\$37,300 to <\$59,680	\$59,680 to <\$89,520	≥\$89,520
<i>Source: FFIEC</i>				

Competition

The assessment area is highly competitive in the market for financial services. According to FDIC Deposit Market Share data as of June 30, 2021, 124 banks operated 1,705 offices across the five counties in the assessment area. These figures also include banks and offices that operate in the portions of Cook and DuPage counties that are not included in the bank’s assessment area. Of these banks, First Merchants ranked 26th, with a deposit market share of 0.4 percent.

According to 2020 HMDA aggregate data, First Merchants ranked 42nd with a market share of 0.6 percent by number of loans among institutions that reported home mortgage originations or purchases in the assessment area. In addition to FDIC-insured banks, First Merchants competes with a large number of credit unions and nonbank mortgage lenders. According to 2019 CRA aggregate data, the bank ranked 43rd with a market share of 0.1 percent by number for small business loans and 3rd with a market share of 9.4 percent by number for small farm loans. Small business and small farm market shares by dollar volume were both higher, at 0.8 percent and 26.0 percent, respectively. As with deposit market share data, aggregate small business and small farm data includes all loans originated in the five whole counties, including the portions of Cook and DuPage counties not in the assessment area.

Community Contact

Examiners contacted a representative of a community development-related organization that is active in the assessment area. As with other assessment areas, the contact cited affordable housing as a major need in the Chicago MSA. Many neighborhoods have an aging housing stock in need of critical improvements, which makes the area less attractive to potential employers. The contact identified several major needs throughout the home buying process, including pre-purchase and post-purchase counseling, down payment assistance, and flexible loan programs that meet the needs of low- and moderate-income borrowers. Affordable small dollar loans, such as loans for urgent home or car repairs, represent another critical need for assessment area families. The contact identified several local banks that are actively involved in community development initiatives, while also noting many opportunities for banks to be more engaged in serving the needs of low- and moderate-income families. The contact also identified continued financial support for small businesses, particularly start-up businesses, as a critical need in the area.

Credit and Community Development Needs and Opportunities

Examiners determined that all four community development categories are significant needs in the areas. As with nearly all of the bank's assessment areas, affordable housing is a significantly need. Support for small businesses remains critical, especially given the challenges associated with the COVID-19 pandemic. Opportunities for revitalization and stabilization continue to exist in the assessment area's low- and moderate-income census tracts, particularly in Cook County and Lake County. Finally, with nearly 500,000 assessment area families considered low- or moderate-income, community services for those individuals remains a significant need. Financial education and flexible lending programs tailored to the needs of low- and moderate-income borrowers represent further needs.

SCOPE OF EVALUATION – CHICAGO MULTISTATE MSA

The scope of evaluation in the Chicago multistate MSA rated area is identical to the overall scope of evaluation for the institution. Examiners conducted a full-scope review of the Chicago MSA assessment area, which is the only assessment area in this rated area. Additionally, although examiners analyzed small farm lending performance, it carried very little weight in arriving at overall conclusions given the low volume for this loan product.

CONCLUSIONS ON PERFORMANCE CRITERIA IN CHICAGO MULTISTATE MSA

LENDING TEST

The Lending Test is rated High Satisfactory for the Chicago MSA. Performance under the lending activity, borrower profile, innovative and flexible lending, and community development lending criteria support the rating.

Lending Activity

Lending levels reflect good responsiveness to assessment area credit needs. Despite facing significant competition in this assessment area, especially from large national banks and nonbank lenders, First Merchants originated a high volume of home mortgage and small business loans in both 2019 and 2020.

The following table details First Merchants' 2019 and 2020 originations by loan type in the assessment area.

Lending Activity – Chicago MSA				
Loan Product	2019 #	2019 \$(000)	2020 #	2020 \$(000)
Closed-End Home Mortgage	241	42,425	344	73,608
Open-End Home Mortgage	293	25,335	273	22,417
<i>Subtotal: Home Mortgage</i>	534	67,760	617	96,025
Small Business	205	47,971	681	96,450
Small Farm	37	5,575	43	5,541
TOTAL	776	121,306	1,341	198,016
<i>Source: Bank Data</i>				

Geographic Distribution

The geographic distribution of loans reflects adequate penetration throughout the assessment area. Although closed-end home mortgage and small farm lending performance was poor, adequate performance of open-end home mortgage and small business lending collectively represented a higher volume of originations and support this conclusion.

Closed-End Home Mortgage Loans

The geographic distribution of closed-end home mortgage loans reflects poor penetration throughout the assessment area. Although the bank's lending in low-income tracts was comparable to aggregate data in both years, lending in moderate-income tracts was roughly half the aggregate level. As such, performance under this criterion is poor. The following table details the geographic distribution of closed-end home mortgage lending.

Geographic Distribution of Closed-End Home Mortgage Loans						
Assessment Area: Chicago MSA

Open-End Home Mortgage Loans

The geographic distribution of open-end home mortgage loans reflects adequate penetration throughout the assessment area. The bank's lending in low- and moderate-income tracts is comparable to aggregate data in both 2019 and 2020. The following table details the geographic distribution of open-end home mortgage lending.

Geographic Distribution of Open-End Home Mortgage Loans						
Assessment Area: Chicago MSA						
Tract Income Level	% of Owner-Occupied Housing Units	Aggregate Performance % of #	#	%	\$(000s)	%

<i>Due to rounding, totals may not equal 100.0%</i>						

Small Business Loans

The geographic distribution of small business loans reflects adequate penetration throughout the assessment area. Lending in low-income tracts was slightly below aggregate in 2019, and lending in low-income tracts increased by both number and dollar volume from 2019 to 2020. Lending in moderate-income tracts similarly trailed aggregate data. However, lending by dollar volume in moderate-income tracts was relatively stronger. Considering the bank’s lending distribution in terms of both number and dollar volume, performance under this criterion is adequate. The following table details the geographic distribution of small business lending.

Geographic Distribution of Small Business Loans						
Assessment Area: Chicago MSA						
Tract Income Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%

Small Farm Loans

The geographic distribution of small farm loans reflects poor penetration throughout the assessment area. As shown in the following table, the bank did not originate any small farm loans in low- or moderate-income tracts in either 2019 or 2020.

Geographic Distribution of Small Farm Loans						
Assessment Area: Chicago MSA						
Tract Income Level	% of Farms	Aggregate Performance % of #	#	%	\$(000s)	%

Borrower Profile

The distribution of borrowers reflects good penetration to individuals of different income levels and business and farms of different sizes. Performance was mixed within the four loan products reviewed. While excellent performance was exhibited in the closed-end home mortgage and small farm lending, the conclusion was supported when combined with the good open-end home mortgage lending and more modest results in the small business lending segment.

Closed-End Home Mortgage Loans

The distribution of closed-end home mortgage loans reflects excellent penetration to retail customers of different income levels. As shown in the following table, the bank's lending to both low- and moderate-income borrowers was well above aggregate levels in both years. This lending distribution reflects excellent performance.

Distribution of Closed-End Home Mortgage Loans by Borrower Income Level						
Assessment Area: Chicago MSA						
Borrower Income Level	% of Families	Aggregate Performance % of #	#	%	\$(000s)	%
Low						
2019	24.1	7.3	31	12.9	2,479	5.8

<i>Source: 2015 ACS; Bank Data, 2019 & 2020 HMDA Aggregate Data, "--" data not available. Due to rounding, totals may not equal 100.0%</i>						

Open-End Home Mortgage Loans

The distribution of open-end home mortgage loans reflects good penetration to retail customers of different income levels. Lending to low-income borrowers slightly exceeded aggregate levels in both 2019 and 2020. Lending to moderate-income borrowers trailed aggregate in 2019, but increased substantially in 2020 with the bank's performance exceeding aggregate data by more than 8.0 percentage points. Given this substantial increase, in addition to solid performance to low-income borrowers, the bank's performance under this criterion is good.

Distribution of Open-End Home Mortgage Loans by Borrower Income Level						
Assessment Area: Chicago MSA						
Borrower Income Level	% of Families	Aggregate Performance % of #	#	%	\$(000s)	%

Small Business Loans

The distribution of small business loans reflects adequate penetration to businesses of different sizes. As shown in the following table, approximately half of the bank's small business loans in this assessment area were to businesses with revenues of \$1 million or less. The bank's level of lending to these businesses was nearly identical to the aggregate level in 2019 and increased slightly in 2020.

Distribution of Small Business Loans by Gross Annual Revenue Category						
Assessment Area: Chicago MSA						
Gross Revenue Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%

<i>Source: 2019 & 2020 D&B Data; Bank Data; 2019 CRA Aggregate Data; "--" data not available. Due to rounding, totals may not equal 100.0%</i>						

Small Farm Loans

The distribution of small farm loans reflects excellent penetration to farms of different sizes. In 2019, the bank’s lending to farms with revenues of \$1 million or less was significantly higher than the aggregate level. Lending in 2020 was similarly strong, with nearly 80.0 percent of small farm loans going to farms in this revenue category.

Distribution of Small Farm Loans by Gross Annual Revenue Category						
Assessment Area: Chicago MSA						
Gross Revenue Level	% of Farms	Aggregate Performance % of #	#	%	\$(000s)	%

Innovative or Flexible Lending Practices

The bank uses innovative and flexible lending practices to serve assessment area credit needs. As shown in the following table, the bank funded 239 innovative and flexible loans totaling more than \$21 million during the evaluation period. These loans provided credit to individuals and businesses that may not have otherwise qualified for traditional bank financing.

Innovative or Flexible Lending Programs – Chicago MSA										
Type of Program	2018		2019		2020		YTD 2021		Totals

<i>Source: Bank Records</i>										

Community Development Loans

The institution made a relatively high level of community development loans. The bank originated more than \$53 million in community development loans in this assessment area, supporting all four community development categories and representing 11.1 percent of the bank's total qualified lending. Ten of these community development loans totaling \$13.8 million were PPP loans.

The following table details the bank’s community development lending in this assessment area by year and purpose.

Community Development Lending – Chicago MSA										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)

Source: Bank Records

Examples of the bank’s community development loans in this assessment area are as follows:

- A \$5.0 million loan funded facility improvements and operations for a health clinic that serves low-income children using Medicaid services.
- A \$1.6 million loan funded the purchase and renovation of a building to create 34 units of affordable housing. The project was completed in partnership with a local affordable housing organization.
- A \$1.3 million loan helped to fund the creation of 25 affordable housing units in a low-income census tract.

INVESTMENT TEST

The Investment Test rating is Outstanding for the Chicago MSA rated area. The bank’s excellent level of qualified investments and good responsiveness to community development needs supports the overall rating.

Investment and Grant Activity

The institution made an excellent level of community development investments. Investments in this assessment area represented 12.8 percent of the bank’s total investment activity by dollar volume, which is consistent with the proportion of overall bank operations in this assessment area. All of these investments were new since the previous evaluation. Investments primarily supported affordable housing and revitalization/stabilization of low- and moderate-income areas. The following table details the qualified investments and donations in this assessment area by year and purpose.

Qualified Investments – Chicago MSA										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)
Prior Period	0	0	0	0	0	0	0	0	0	0
2018	2	1,216	0	0	0	0	0	0	2	1,216
2019	3	7,607	0	0	1	250	0	0	4	7,857
2020	1	7,500	0	0	2	447	1	8,300	4	16,247
2021	0	0	0	0	0	0	0	0	0	0
Subtotal	6	16,323	0	0	3	697	1	8,300	10	25,320
Qualified Donations	3	15	40	180	1	50	0	0	44	245
Total	9	16,338	40	180	4	747	1	8,300	54	25,565
<i>Source: Bank Data</i>										

Examples of the bank’s qualified investments in this assessment area are as follows:

- One investment for \$8.3 million financed the cost of improvements to critical infrastructure in a moderate-income tract.
- The bank made investments totaling \$500,000 to two different minority-owned depository institutions in the assessment area.
- In 2020, the bank donated a total of \$131,250 to 35 separate organizations responsive to the needs of low- and moderate-income individuals affected by COVID-19. Examples include donations to organizations providing housing, food, and other essential services.

Responsiveness to Credit and Community Development Needs

The institution exhibits good responsiveness to credit and community development needs. Investments primarily supported affordable housing and revitalization/stabilization of low- and moderate-income areas, both of which are significant needs in the assessment area.

Community Development Initiatives

The institution occasionally uses innovative or complex investments to support community development initiatives. Some of the bank’s investments exhibited complex characteristics, such as investments in tax credit funds that support affordable housing developments.

SERVICE TEST

The Service Test rating is Low Satisfactory for the Chicago MSA rated area. Performance under the retail performance criteria supports this conclusion.

Accessibility of Delivery Systems

Delivery systems are reasonably accessible to essentially all portions of the assessment area. As shown in the following table, the bank operates two offices in low-income tracts, and this percentage exceeds the percentage of assessment area residents that live in those tracts. The

percentage of bank offices in moderate-income tracts lags both the percentage of assessment area residents that live in moderate-income tracts and also the percentage of other bank offices in those tracts.

However, the table does not reflect the fact that First Merchants operates several branches in middle-income tracts that are immediately adjacent to low- and moderate-income tracts. For example, the bank’s branch in South Holland, Illinois, is located-in a middle-income tract directly adjacent to a low-income tract and a moderate-income tract. Similarly, the bank’s branch in Valparaiso, Indiana, is located directly across the street from a moderate-income tract. As such, the bank’s physical branch locations are accessible to essentially all portions of the assessment area.

Branch Distribution by Geography Income Level – Chicago MSA								
Tract Income Level	Offices of Other Lenders		Census Tracts		Population		Bank Branches	
	#	%	#	%	#	%	#	%

Total	505	100.0	450	100.0	1,941,288	100.0	18	100.0

Source: 2015 ACS Data, 2020 Peer Deposit Data, and Bank Records. Due to rounding, totals may not equal 100.0.

Changes in Branch Locations

To the extent changes have been made, the institution’s opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals. During the evaluation period, the bank closed three offices in this assessment area. Two of these were in upper-income tracts and one was in a middle-income tract. As such, these closures did not disproportionately affect the accessibility of banking services in low- and moderate-income areas.

Reasonableness of Business Hours and Services

Services and business hours do not vary in a way that inconveniences portions of the assessment area, particularly low- and moderate-income geographies and individuals. Services and business hours are generally consistent across all office locations in this assessment area. All offices offer Saturday hours, and nearly all offer drive-up services. Any variations in services or hours are minor and do not predominantly affect low- and moderate-income areas.

Community Development Services

The bank provided a relatively high level of community development services. Nearly one quarter of the bank’s total community development services were in this assessment area. Most of these activities supported the provision of community services for low- and moderate-income individuals.

The following table details the bank’s community development services in this assessment area by year and purpose.

Community Development Services – Chicago MSA					
Activity Year	Affordable Housing	Community Services	Economic Development	Revitalize or Stabilize	Totals
	#	#	#	#	#
2018	1	4	1	0	6
2019	8	33	3	0	44
2020	13	11	5	0	29
YTD 2021	11	2	4	0	17
Total	33	50	13	0	96
<i>Source: Bank Records</i>					

Examples of the bank’s community development services in this assessment area are as follows:

- A bank officer serves on the board of a food bank, which provides needed food to low- and moderate-income persons.
- A bank officer serves on the board of an organization, which provides rent funds for homeless persons.
- A bank officer serves on the loan committee for a small business loan fund administered by an economic development entity.

MICHIGAN

CRA RATING FOR MICHIGAN: SATISFACTORY

The Lending Test is rated: Low Satisfactory

The Investment Test is rated: Low Satisfactory

The Service Test is rated: Low Satisfactory

DESCRIPTION OF INSTITUTION’S OPERATIONS IN MICHIGAN

The Michigan rated area is the newest of the bank’s rated areas. The bank expanded its operations into Michigan with the acquisition of Monroe Bank & Trust in late 2019. First Merchants operates 17 offices in Michigan, and the area contains roughly 10 percent of total bank deposits and lending activity. Within Michigan, the bank has delineated two separate assessment areas: Monroe MSA and Detroit MSA.

SCOPE OF EVALUATION - MICHIGAN

The scope of evaluation in the Michigan rated area is largely identical to the overall scope of evaluation for the institution. Examiners conducted a full-scope review of the Monroe MSA assessment area and a limited-scope review of the Detroit MSA assessment area. Given that the Monroe MSA assessment area contains a larger portion of bank operations and lending activity,

overall conclusions for the Michigan rated area were primarily based on performance in that assessment area. Additionally, examiners did not analyze small farm lending performance in the Detroit MSA given the very small loan volume for that product in that assessment area. Finally, given that the bank established these assessment areas in late 2019 as the result of an acquisition, examiners analyzed only 2020 lending data for both assessment areas.

CONCLUSIONS ON PERFORMANCE CRITERIA IN MICHIGAN

LENDING TEST

The Lending Test rating is Low Satisfactory in the Michigan rated area. Although the bank made a low level of community development loans and made limited use of innovative and flexible lending products, relatively stronger performance under the remaining Lending Test criteria supports the overall Low Satisfactory rating.

Lending Activity

Lending levels reflect good responsiveness to assessment area credit needs. This conclusion is based primarily on the bank's lending activity in the Monroe MSA assessment area.

Geographic Distribution

The geographic distribution of loans reflects good penetration throughout the assessment area. This conclusion is based primarily on the bank's performance in the Monroe MSA assessment area.

Borrower Profile

The distribution of borrowers reflects adequate penetration among individuals of different income levels and business and farms of different sizes. This conclusion is based primarily on the bank's performance in the Monroe MSA assessment area.

Innovative or Flexible Lending Practices

The bank makes limited use of innovative and flexible lending practices in order to serve assessment area credit needs. As shown in the following table, the bank funded 50 innovative and flexible loans totaling \$6.4 million during the evaluation period in the two Michigan assessment areas.

Innovative and Flexible Lending Programs – Michigan Rated Area			
Loan Type	Loan Program	Totals	
		#	\$(000s)
Home Mortgage	Next Horizon	4	558
	Fannie & Freddie programs	6	704
	FHA	6	869
	VA	2	444
	USDA	0	0
	State HFA	0	0
Small Business	SBA (non-PPP)	6	3,754
Consumer	Unsecured Home Improvement	13	56
	Credit Creator	13	22
Totals		50	6,407
<i>Source: Bank Records</i>			

Community Development Loans

The institution made a low level of community development loans in the Michigan rated area. The bank made six community development loans in the Detroit MSA assessment area, of which three loans totaling \$4.3 million were PPP loans. However, the bank did not originate any community development loans in the Monroe MSA assessment area, which negatively impacted overall performance under this criterion.

Community Development Lending by Assessment Area – Michigan Rated Area

INVESTMENT TEST

The Investment Test rating is Low Satisfactory for the Michigan rated area. The bank's adequate level of qualified investments and adequate responsiveness to community development needs supports this rating. Performance was consistent across both Michigan assessment areas.

Investment and Grant Activity

The institution made an adequate level of qualified community development investments and grants. The bank made a total of \$17.2 million in qualified investments in the Michigan rated area, including prior period investments and qualified donations. In addition to investments within the specific assessment areas, the bank made investments totaling \$7.3 million that benefitted a broader

statewide area. The following table details the bank’s qualified investments and donations by assessment area and purpose. Refer to the separate assessment area sections of this evaluation for more information.

Qualified Investments and Donations by Assessment Area – Michigan Rated Area										
	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)
Monroe MSA	3	5,856	0	0	0	0	0	0	3	5,856
Detroit MSA	2	3,717	0	0	0	0	0	0	2	3,717

Total	6	14,573	26	265	2	43	1	2,330	35	17,211
<i>Source: Bank Data</i>										

Responsiveness to Credit and Community Development Needs

The institution exhibits adequate responsiveness to credit and community development needs. Examiners identified affordable housing as a significant need in the rated area, and the bank’s investments primarily supported affordable housing initiatives.

Community Development Initiatives

The institution occasionally uses innovative or complex investments to support community development initiatives. Some of the bank’s investments exhibited complex characteristics, such as investment funds structured to achieve specific community development purposes.

SERVICE TEST

The Service Test rating is Low Satisfactory for the Michigan rated area. Performance under each Service Test criterion supports this conclusion.

Accessibility of Delivery Systems

Delivery systems are reasonably accessible to essentially all portions of the assessment areas. With respect to low- and moderate-income areas, delivery systems are relatively more accessible in the Monroe MSA. In contrast, in the Detroit MSA, the bank does not maintain any offices in the large swaths of low- and moderate-income tracts in and around downtown Detroit. The bank’s alternative delivery systems also promote the accessibility of bank services to low- and moderate-income individuals.

Changes in Branch Locations

To the extent changes have been made, the institution’s opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and

moderate-income geographies and to low- and moderate-income individuals. The bank closed four offices in the Michigan rated area during the evaluation period; however, all of these were in middle- and upper-income census tracts and did not disproportionately affect low- and moderate-income areas.

Reasonableness of Business Hours and Services

Services and business hours do not vary in a way that inconveniences portions of the assessment area, particularly low- and moderate-income geographies and individuals. Services and business hours are generally consistent across all office locations in the assessment areas. Any variations in services or hours are minor and do not predominantly affect low- and moderate-income areas.

Community Development Services

The institution provided an adequate level of community development services. Most of the bank’s community development services within this rated area were in the Monroe MSA assessment area. Of these services, most supported the provision of community services for low- and moderate-income individuals, as reflected in the following table.

Community Development Services by Assessment Area – Michigan Rated Area					
Assessment Area	Affordable Housing	Community Services	Economic Development	Revitalize or Stabilize	Totals
	#	#	#	#	#
Monroe MSA	5	37	11	0	53
Detroit MSA	4	2	2	0	8
Total	9	39	13	0	61

MONROE, MI MSA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN MONROE, MI MSA

The Monroe MSA assessment area includes Monroe County, Michigan, which is directly south of Detroit. Monroe County is the only county in this MSA. First Merchants operates 11 offices in this assessment area.

Economic and Demographic Data

The assessment area contains all 39 tracts in Monroe County. According to 2015 ACS data, these tracts reflect the following income designations:

- 1 low-income tract
- 6 moderate-income tracts
- 27 middle-income tracts
- 4 upper-income tracts
- 1 tract with no income designation

All of the low- and moderate-income tracts are contiguous and concentrated in the city of Monroe. The outlying suburban and rural portions of the county are all middle- and upper-income. The following table details select economic and demographic characteristics of the assessment area.

Demographic Information of the Assessment Area						
Assessment Area: Monroe MSA						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #

<i>(*) The NA category consists of geographies that have not been assigned an income classification.</i>						

According to United States Bureau of Labor Statistics data, unemployment rates spiked to over 20.0 percent at the onset of the COVID-19 pandemic. Rates have since declined but remain elevated relative to historical levels. As of June 2021, the Monroe County unemployment rate remains slightly above 6.0 percent. According to Moody’s Analytics, employment continues to grow, but at a rate below those of Michigan and the nation. The manufacturing sector in particular has struggled to gain momentum since late 2020. Major employers in the county include ProMedica Monroe Regional Hospital and DTE Energy, which operates one of the nation’s largest coal-fired power plants in Monroe.

The table below presents the Monroe MSA median family income levels for 2019 and 2020, as updated by the FFIEC.

Median Family Income Ranges – Monroe MSA (33780)				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
2019 (\$79,000)	<\$39,500	\$39,500 to <\$63,200	\$63,200 to <\$94,800	≥\$94,800
2020 (\$80,600)	<\$40,300	\$40,300 to <\$64,480	\$64,480 to <\$96,720	≥\$96,720
<i>Source: FFIEC</i>				

Competition

The assessment area is moderately competitive in the market for financial services. According to FDIC Deposit Market Share data as of June 30, 2021, 7 banks operated 24 offices in the assessment area. Of these banks, First Merchants ranked first, with a deposit market share of 44.4 percent. According to 2020 HMDA aggregate data, First Merchants ranked sixth among home mortgage lenders in the assessment area by number of loans. According to 2019 CRA aggregate data, First Merchants was the top small business and small farm lender by dollar volume, with dollar volume market shares of 34.6 percent and 65.3 percent, respectively.

Community Contacts

Examiners contacted a representative of a community development-related organization in the assessment area. The contact stated that affordable housing is a significant need in Monroe County. Additionally, the contact noted that opportunities exist for financial institutions to be involved in supporting local affordable housing initiatives. These opportunities include grants, loans, and services, among other opportunities.

Credit and Community Development Needs and Opportunities

Examiners determined that affordable housing is a significant need in this assessment area. Opportunities for revitalization and stabilization exist in the low- and moderate-income portions of hMonroe, which are concentrated in the downtown areas of the city. Various community services for the area’s low- and moderate-income population also remain needed.

CONCLUSIONS ON PERFORMANCE CRITERIA IN MONROE, MI MSA

LENDING TEST

First Merchants demonstrated reasonable performance under the Lending Test in the Monroe MSA assessment area. Although the bank did not originate any community development loans in this assessment area and made limited use of innovative and flexible lending products, relatively stronger performance under the remaining Lending Test criteria supports the overall satisfactory conclusion.

Lending Activity

Lending levels reflect good responsiveness to assessment area credit needs. According to 2020 HMDA data, the bank was the sixth-ranked closed-end home mortgage lender in the assessment area. With respect to home mortgage lending, the bank faces significant competition from large national banks and nonbank mortgage lenders. Furthermore, the bank was the top small business and small farm lender by dollar volume in 2019 among institutions that report CRA data. These small business and small farm lending levels support good performance under this criterion.

The following table details First Merchants' 2020 originations by loan type in the assessment area.

Lending Activity – Monroe MSA		
Loan Product	2020 #	2020 \$(000)
Closed-End Home Mortgage	195	31,350
Open-End Home Mortgage	121	8,770
<i>Subtotal: Home Mortgage</i>	316	40,120
Small Business	576	59,898
Small Farm	32	3,762
TOTAL	924	103,780
<i>Source: Bank Data</i>		

Geographic Distribution

The geographic distribution of loans reflects good penetration throughout the assessment area. Excellent closed-end home mortgage lending performance, good open-end home mortgage lending performance, and good small business lending performance support this conclusion.

Closed-End Home Mortgage Loans

The geographic distribution of closed-end home mortgage loans reflects excellent penetration throughout the assessment area. The bank did not originate any closed-end home mortgage loans in low-income tracts in 2020; however, given that less than 1.0 percent of owner-occupied housing units are in these tracts, this lack of originations is reasonable. Lending in moderate-income tracts, which contain many more owner-occupied housing units, was strong, with bank performance exceeding aggregate data by more than 7.0 percentage points. Given this strong lending performance in moderate-income tracts, the bank's performance is excellent. The following table details the geographic distribution of closed-end home mortgage lending.

Geographic Distribution of Closed-End Home Mortgage Loans						
Assessment Area: Monroe MSA						
Tract Income Level	% of Owner-Occupied Housing Units	Aggregate Performance % of #	#	%	\$(000s)	%

<i>Source: 2015 ACS; Bank Data; 2020 HMDA Aggregate Data Due to rounding, totals may not equal 100.0%</i>						

Open-End Home Mortgage Loans

The geographic distribution of open-end home mortgage loans reflects good penetration throughout the assessment area. As with closed-end home mortgage lending, the bank did not originate any loans in low-income tracts in 2020. However, in moderate-income tracts, the bank’s performance exceeded aggregate data, reflecting good performance. The following table details the geographic distribution of open-end home mortgage lending.

Geographic Distribution of Open-End Home Mortgage Loans						
Assessment Area: Monroe MSA

Small Business Loans

The geographic distribution of small business loans reflects good penetration throughout the assessment area. The bank’s lending in low-income tracts was nearly identical to the business population in these tracts, and lending in moderate-income tracts exceeded the demographic data by several percentage points, reflecting good performance. The following table details the geographic distribution of small business lending.

Geographic Distribution of Small Business Loans

Borrower Profile

The distribution of borrowers reflects adequate penetration to individuals of different income levels and business and farms of different sizes. While the performance in the limited small farm lending was good, the conclusion is supported by relatively consistent performance across all of the remaining loan products.

Closed-End Home Mortgage Loans

The distribution of closed-end home mortgage loans reflects adequate penetration to retail customers of different income levels. As shown in the following table, the bank's lending to low-income borrowers was well above aggregate data, and lending to moderate-income borrowers was slightly below aggregate data. Overall, this distribution of lending reflects adequate performance.

Distribution of Closed-End Home Mortgage Loans by Borrower Income Level						
Assessment Area: Monroe MSA						
Borrower Income Level	% of Families	Aggregate Performance % of #	#	%	\$(000s)	%

<i>Due to rounding, totals may not equal 100.0%</i>						

Open-End Home Mortgage Loans

The distribution of open-end home mortgage loans reflects adequate penetration to retail customers of different income levels. As shown in the following table, and as with closed-end home mortgage lending, the bank's open-end lending to low-income borrowers was slightly above aggregate data, and lending to moderate-income borrowers was below aggregate. Overall, this distribution reflects adequate performance.

Distribution of Open-End Home Mortgage Loans by Borrower Income Level

Small Business Loans

The distribution of small business loans reflects adequate penetration to businesses of different sizes. Although aggregate data was not yet available for 2020, more than half of the bank’s small business loans were to businesses with revenues of \$1 million or less, reflecting adequate performance. Also, this performance was relatively consistent with the aggregate market performance in the most recent year in which it was available (2019). The following table details the bank’s small business lending by revenue level.

Distribution of Small Business Loans by Gross Annual Revenue Category						
Assessment Area: Monroe MSA						
Gross Revenue Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%
≤\$1,000,000

Small Farm Loans

The distribution of small farm borrowers reflects good penetration among farms of different sizes. Although aggregate data was not yet available for 2020, three quarters of the bank's small farm loans were to farms with revenues of \$1 million or less, reflecting good performance in serving the needs of small farms. This performance slightly exceeded the results of aggregate market in the most recent year that it was available (2019). The following table details the bank's small farm lending by revenue level.

Distribution of Small Farm Loans by Gross Annual Revenue Category

Innovative or Flexible Lending Practices

The bank makes limited use of innovative and flexible lending practices in order to serve assessment area credit needs. As shown in the following table, the bank funded 31 innovative and flexible loans totaling \$5.2 million during the evaluation period. These loans provided credit to individuals and businesses that may not have otherwise qualified for traditional bank financing.

Community Development Loans

The bank did not make any community development loans in this assessment area.

INVESTMENT TEST

First Merchants demonstrated reasonable performance under the Investment Test in the Monroe MSA assessment area. The bank’s relatively adequate level of qualified investments supports this conclusion.

Investment and Grant Activity

The institution made an adequate level of community development investments. Investments in this assessment area represented 3.0 percent of the bank’s total investment activity by dollar volume, which is less than the proportion of overall bank operations in this assessment area. However, examiners considered the fact that qualified investment opportunities are relatively less plentiful in this assessment area compared to the more populated and urban assessment areas.

Nearly all investments supported affordable housing. The following table details the qualified investments and donations in this assessment area by year and purpose.

Qualified Investments – Monroe MSA										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)

Total	3	5,856	23	227	0	0	0	0	26	6,083
<i>Source: Bank Data</i>										

Examples of the bank’s qualified investments in this assessment area are as follows:

- The bank invested \$1.9 million in funds that supported affordable housing projects in this assessment area.
- In 2020, the bank donated a total of \$85,000 to 18 separate organizations responsive to the needs of low- and moderate-income individuals affected by COVID-19. Examples include donations to organizations providing housing, food, and other items.

Responsiveness to Credit and Community Development Needs

The institution exhibits adequate responsiveness to credit and community development needs. Examiners identified affordable housing as a need in this assessment area, and the bank’s investments supported affordable housing initiatives.

Community Development Initiatives

The institution occasionally uses innovative or complex investments to support community development initiatives. Some of the bank’s investments exhibited complex characteristics, such as investment funds structured to achieve specific community development purposes.

SERVICE TEST

First Merchants demonstrated reasonable performance under the Service Test in the Monroe MSA assessment area. Performance under the retail service criteria supports this conclusion.

Accessibility of Delivery Systems

Delivery systems are reasonably accessible to essentially all portions of the assessment area, as shown in the following table. All of the low- and moderate-income tracts in this assessment area are clustered in and around downtown Monroe. The bank maintains two office locations in this cluster of tracts, effectively serving this low- and moderate-income area. Additionally, the bank operates five ATMs located in moderate-income tracts.

Branch Distribution by Geography Income Level – Monroe MSA								
Tract Income Level	Offices of Other Lenders		Census Tracts		Population		Bank Branches

Source: 2015 ACS Data, 2020 Peer Deposit Data, and Bank Records. Due to rounding, totals may not equal 100.0.

Changes in Branch Locations

To the extent changes have been made, the institution’s opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals. During the evaluation period, the bank closed three offices in this assessment area. All three closures were in middle-income tracts. As such, these closures did not disproportionately affect the accessibility of banking services in low- and moderate-income areas.

Reasonableness of Business Hours and Services

Services and business hours do not vary in a way that inconveniences portions of the assessment area, particularly low- and moderate-income geographies and individuals. Services and business hours are generally consistent across all office locations in this assessment area. All offices offer Saturday hours, and nearly all offer drive-up services. Any variations in services or hours are minor and do not predominantly affect low- and moderate-income areas.

Community Development Services

The bank provided a relatively high level of community development services. The level of community development services is relatively high considering the limited time that the bank has operated in this assessment area. Most of these services supported the provision of community services for low- and moderate-income individuals. The following table details the bank’s community development services in this assessment area by year and purpose.

Community Development Services – Monroe MSA					
Activity Year	Affordable Housing	Community Services	Economic Development	Revitalize or Stabilize	Totals
	#	#	#	#	#
2018	0	0	0	0	0
2019	4	29	1	0	34

YTD 2021	0	1	4	0	5
Total	5	37	11	0	53
<i>Source: Bank Records</i>					

Examples of the bank’s community development services in this assessment area are as follows:

- A bank officer serves on a committee promoting affordable housing for an organization, which provides homeownership opportunities to low-income persons.
- A bank officer serves on the board of an entity promoting economic development in the assessment area.
- Bank officers taught financial education classes for low- and moderate-income persons at entities providing services for those persons.

DETROIT, MI MSA – Limited-Scope Review

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE DETROIT, MI MSA

The following table summarizes the conclusions for the Detroit MSA assessment area, which examiners reviewed using limited-scope procedures. Examiners drew conclusions regarding the institution’s CRA performance from reviewing available facts and data, including performance figures, aggregate lending data comparisons, and demographic information. While Lending Test and Investment Test performance in the Detroit MSA was consistent with performance in the Monroe MSA, performance under the Service Test was relatively weaker in the Detroit MSA. Specifically, delivery systems are less accessible to low- and moderate-income areas in the Detroit MSA (no offices are in these geographies), and the bank provided a limited level of community development services. However, despite these weaknesses, the bank’s Service Test performance remains Low Satisfactory for the Michigan rated area.

Assessment Area	Lending Test	Investment Test	Service Test
Detroit, MI MSA	Consistent	Consistent	Below

Detroit, MI MSA

The Detroit MSA assessment area includes all of Wayne County, Michigan. First Merchants operates six branches in this assessment area. As noted previously, branch locations and delivery

systems in this assessment area are relatively less accessible to low- and moderate-income areas compared to overall bank performance. The table below summarizes the bank's lending and community development activities in this assessment area during the evaluation period.

COLUMBUS, OH MSA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN COLUMBUS, OH MSA

The Columbus MSA assessment area includes Franklin County, Ohio, where the City of Columbus is located. First Merchants operates seven offices in this assessment area.

Economic and Demographic Data

The assessment area contains all 284 tracts in Franklin County. According to 2015 ACS data, these tracts reflect the following income designations:

- 61 low-income tracts
- 76 moderate-income tracts
- 69 middle-income tracts
- 75 upper-income tracts
- 3 tracts with no income designation

The following table details select economic and demographic characteristics of the assessment area.

Demographic Information of the Assessment Area						
Assessment Area: Columbus MSA						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #

<i>(*) The NA category consists of geographies that have not been assigned an income classification.</i>						

According to United States Bureau of Labor Statistics data, unemployment rates in Franklin County reached a low of 4.6 percent at the end of 2020; however, unemployment rates have remained in the 5.0 to 6.0 percent range for most of 2021. According to Moody's Analytics, the Columbus area economic recovery has fallen behind statewide and nationwide averages. Franklin County's labor force has also declined, as discouraged workers leave the labor force entirely. Nonetheless, the Columbus economy maintains several strengths, including a highly-educated workforce, population growth, and favorable demographic trends. Major employers in the assessment area include Ohio State University, OhioHealth, and JPMorgan Chase.

The table below presents the Columbus MSA median family income levels for 2019 and 2020, as updated by the FFIEC.

Median Family Income Ranges – Columbus MSA (18140)				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
2019 (\$77,900)	<\$38,950	\$38,950 to <\$62,320	\$62,320 to <\$93,480	≥\$93,480
2020 (\$84,600)	<\$42,300	\$42,300 to <\$67,680	\$67,680 to <\$101,520	≥\$101,520
<i>Source: FFIEC</i>				

Competition

The assessment area is highly competitive in the market for financial services. According to FDIC Deposit Market Share data as of June 30, 2021, 36 banks operated 308 offices in Franklin County. Of these banks, First Merchants ranked ninth, with a deposit market share of 0.9 percent. According to 2020 HMDA aggregate data, First Merchants' home mortgage market share was less than one percent by both number and dollar volume. According to 2019 CRA aggregate data, First Merchants' small business market share was similarly low by number, but notably higher by dollar volume, at 3.6 percent.

Community Contacts

Examiners reviewed a recent contact with a local economic development organization active in the assessment area. The contact cited affordable housing as a significant need in the assessment area. Housing inventory is low in the Columbus area, and potential homebuyers are often outbid by those purchasing homes as investment properties. Affordable housing units are particularly low in supply. The contact identified several credit and community development needs including personal financial education, down payment assistance, and continued support for small businesses in light of pandemic-related challenges. The contact stated that local financial institutions are generally responsive to local credit needs, but some institutions are not familiar with programs that serve the needs of low- and moderate-income borrowers (such as local down payment assistance programs), which limits the overall benefit of these programs.

Credit and Community Development Needs and Opportunities

As noted in the previous section, affordable housing is a significant need in the assessment area, along with various lending programs and financial education tailored to the needs of low- and moderate-income borrowers. Economic development and support for small businesses is an additional need. Opportunities for revitalization and stabilization are present, particularly in the large swaths of low- and moderate-income census tracts in and around downtown Columbus. Finally, community services for low- and moderate-income individuals remains a significant need.

SCOPE OF EVALUATION – OHIO

The scope of evaluation in the Ohio rated area is largely identical to the overall scope of evaluation for the institution. However, examiners did not analyze small farm lending performance within this rated area, given the low volume for that product. This Columbus MSA assessment area, for which examiners conducted a full-scope review, is the only assessment area within this rated area. Therefore, performance conclusions for the Columbus MSA assessment area are identical to overall conclusions for the rated area.

CONCLUSIONS ON PERFORMANCE CRITERIA IN COLUMBUS, OH MSA

LENDING TEST

The Lending Test rating is High Satisfactory for the Columbus MSA assessment area. The bank's performance under the lending activity, community development lending, and innovative and flexible lending criteria primarily support this rating.

Lending Activity

Lending levels reflect good responsiveness to assessment area credit needs. Despite facing significant competition in this assessment area, especially from large national banks and nonbank lenders, First Merchants originated significant numbers of home mortgage and small business loans in both 2019 and 2020.

The following table details First Merchants' 2019 and 2020 originations by loan type in the assessment area.

Lending Activity – Columbus MSA				
Loan Product	2019 #	2019 \$(000)	2020 #	2020 \$(000)
Closed-End Home Mortgage	207	81,111	481	124,499
Open-End Home Mortgage	96	12,553	96	16,930
<i>Subtotal: Home Mortgage</i>	303	93,664	577	141,429
Small Business	161	38,715	494	91,655
Small Farm	0	0	0	0
TOTAL	464	132,379	1,071	233,084
<i>Source: Bank Data</i>				

Geographic Distribution

The geographic distribution of loans reflects adequate penetration throughout the assessment area. Although small business lending performance was poor, adequate closed-end home mortgage lending and open-end home mortgage lending performance support the overall conclusion.

Closed-End Home Mortgage Loans

The geographic distribution of closed-end home mortgage loans reflects adequate penetration throughout the assessment area. Lending in both low- and moderate-income tracts significantly trailed aggregate levels in 2019. However, in 2020, lending increased substantially in both low- and moderate-income tracts, exceeding aggregate levels. Given this substantial increase, performance under this criterion is adequate. The following table details the geographic distribution of closed-end home mortgage lending.

Geographic Distribution of Closed-End Home Mortgage Loans						
Assessment Area: Columbus MSA

Open-End Home Mortgage Loans

The geographic distribution of open-end home mortgage loans reflects adequate penetration throughout the assessment area. Lending in low-income tracts was comparable to aggregate data in both 2019 and 2020. Lending in moderate-income tracts significantly trailed aggregate data in 2019 but improved notably in 2020 and was identical to the aggregate level in that year. As such, overall performance under this criterion is adequate. The following table details the geographic distribution of open-end home mortgage lending.

Geographic Distribution of Open-End Home Mortgage Loans							
Assessment Area: Columbus MSA							
Tract Income Level		% of Owner-Occupied Housing Units	Aggregate Performance % of #	#	%	\$(000s)	%

Small Business Loans

The geographic distribution of small business loans reflects poor penetration throughout the assessment area. Although lending in moderate-income tracts was comparable to aggregate data in 2019, lending in low-income tracts was significantly below aggregate data in 2019 and declined further in 2020. As such, overall geographic distribution is poor. The following table details the geographic distribution of small business lending.

Geographic Distribution of Small Business Loans						
Assessment Area: Columbus MSA						
Tract Income Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%

Borrower Profile

The distribution of borrowers reflects adequate penetration to individuals of different income levels and business of different sizes. Although open-end home mortgage lending performance was poor, adequate closed-end home mortgage and small business lending performance support the overall conclusion.

Closed-End Home Mortgage Loans

The distribution of closed-end home mortgage loans reflects adequate penetration to retail customers of different income levels. As shown in the following table, the bank's lending to both low- and moderate-income trailed aggregate data in 2019 but exceeded aggregate in 2020. Given this notable improvement, performance under this criterion is adequate.

Distribution of Closed-End Home Mortgage Loans by Borrower Income Level						
Assessment Area: Columbus MSA

Open-End Home Mortgage Loans

The distribution of open-end home mortgage loans reflects poor penetration to retail customers of different income levels. As shown in the following table, the bank's lending to low- and moderate-income borrowers significantly trailed aggregate data in both years.

Distribution of Open-End Home Mortgage Loans by Borrower Income Level						
Assessment Area: Columbus MSA						
Borrower Income Level	% of Families	Aggregate Performance % of #	#	%	\$(000s)	%
Low

Small Business Loans

The distribution of small business loans reflects adequate penetration to businesses of different sizes. In 2019, the bank's level of lending to businesses with revenues of \$1 million or less was comparable to aggregate data. Total lending to these businesses increased in 2020, but declined as a percentage of overall lending, mostly due to the large number of PPP loans for which revenues were not reported. Given these factors, overall performance is adequate.

Distribution of Small Business Loans by Gross Annual Revenue Category						
Assessment Area: Columbus MSA						
Gross Revenue Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%
≤\$1,000,000

Innovative or Flexible Lending Practices

The bank uses innovative and flexible lending practices in order to serve assessment area credit needs. As shown in the following table, the bank funded 85 innovative and flexible loans totaling more than \$11 million during the evaluation period. These loans provided credit to individuals and businesses that may not have otherwise qualified for traditional bank financing.

Community Development Loans

The institution is a leader in making community development loans. The bank originated more than \$104 million in community development loans in this assessment area, primarily supporting revitalization and stabilization of low- and moderate-income areas. Among all ten assessment areas, community development lending volume was the second highest in this assessment area

(trailing only the Indianapolis MSA). Thirteen of the bank’s community development loans totaling \$27.9 million in this assessment area were PPP loans.

The following table details the bank’s community development lending in this assessment area by year and purpose.

Community Development Lending – Columbus MSA										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)

<i>Source: Bank Records</i>										

Examples of the bank’s community development loans in this assessment area are as follows:

- A \$16.0 million loan funded the construction of a 180-unit multi-family community and retail space. This project is in a city designated CRA zone available in Ohio and is part of a city redevelopment plan for the low-income census tract.
- Another \$16.0 million loan provided funding for the construction of a 480-unit market rent and affordable housing multi-family project. The project is in a designated CRA zone, which was created to assist in the redevelopment of the area.
- A \$7.5 million loan assists in funding the affordable housing plan for an affordable housing entity in central Ohio. The funds provide a source of capital for investment in affordable housing development.

INVESTMENT TEST

The Investment Test rating is High Satisfactory for the Columbus MSA assessment area. The bank’s relatively high level of qualified investments supports this conclusion.

Investment and Grant Activity

The institution made a relatively high level of community development investments. Investments in this assessment area represented 7.4 percent of the bank’s total investment activity by dollar volume, which is consistent with the proportion of overall bank operations in this assessment area. Nearly all of these investments were new since the previous evaluation. Most of the investments in this assessment area supported affordable housing. The following table details the qualified investments and donations in this assessment area by year and purpose.

Qualified Investments – Columbus MSA										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

Total	11	12,629	30	221	3	2,009	0	0	44	14,859
<i>Source: Bank Data</i>										

Examples of the bank’s qualified investments in this assessment area are as follows:

- The bank invested \$2.0 million in a Small Business Investment Company, which provided financing to a qualified small business in the assessment area.
- The bank invested \$6.0 million in Ohio Housing Finance Agency funds that financed the purchase of owner-occupied residences by qualified low- and moderate-income borrowers.
- In 2020, the bank donated a total of \$100,000 to 20 separate organizations responsive to the needs of low- and moderate-income individuals affected by COVID-19. Examples include donations to organizations providing housing, food, and other items.

Responsiveness to Credit and Community Development Needs

The bank demonstrated good responsiveness to credit and community development needs. Most investments supported affordable housing, which is a significant community development need in the assessment area.

Community Development Initiatives

The institution occasionally uses innovative or complex investments to support community development initiatives. Some of the bank’s investments exhibited complex characteristics, such as investments in Small Business Investment Companies that support economic development by financing small businesses.

SERVICE TEST

The Service Test rating is Low Satisfactory for the Columbus MSA assessment area. Performance under each Service Test criterion supports this rating.

Accessibility of Delivery Systems

Delivery systems are reasonably accessible to essentially all portions of the assessment area. As shown in the following table, the bank does not maintain any offices in low-income tracts.

However, the percentage of bank offices in moderate-income tracts significantly exceeds the moderate-income tract population. Additionally, several bank offices are located approximately one mile or less from low-income tracts.

Branch Distribution by Geography Income Level – Columbus MSA								
Tract Income Level	Offices of Other Lenders		Census Tracts		Population		Bank Branches	
	#	%	#	%	#	%	#	%

Source: 2015 ACS Data, 2020 Peer Deposit Data, and Bank Records. Due to rounding, totals may not equal 100.0.

Changes in Branch Locations

To the extent changes have been made, the institution’s opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and to low- and moderate-income individuals. During the evaluation period, the bank closed one office in this assessment area. This office was located in an upper-income tract. As such, this closure did not disproportionately affect the accessibility of banking services in low- and moderate-income areas.

Reasonableness of Business Hours and Services

Services and business hours do not vary in a way that inconveniences portions of the assessment area, particularly low- and moderate-income geographies and individuals. Services and business hours are generally consistent across all office locations in this assessment area. All offices offer Saturday hours and drive-up services. Any variations in services or hours are minor and do not predominantly affect low- and moderate-income areas.

Community Development Services

The bank provided an adequate level of community development services. The 29 qualified services represent 7.0 percent of the bank’s qualified activities, which is consistent with its operations in this market. Nearly all of these services supported the provision of community services for low- and moderate-income individuals. The following table details the bank’s community development services in this assessment area by year and purpose.

Community Development Services – Columbus MSA					
Activity Year	Affordable Housing	Community Services	Economic Development	Revitalize or Stabilize	Totals
	#	#	#	#	#

<i>Source: Bank Records</i>					

Examples of the bank’s community development services in this assessment area are as follows:

- A bank officer serves on the board of an entity providing nutrition and health services to low-income persons in central Ohio.
- A bank officer serves on the board of an entity that provides services to homeless women.
- Bank officers taught financial education classes for low- and moderate-income persons at entities providing services for those persons.

CINCINNATI, OH-IN MULTISTATE MSA – Full-Scope Review

CRA RATING FOR CINCINNATI MULTISTATE MSA: NEEDS TO IMPROVE

The Lending Test is rated: Needs to Improve

The Investment Test is rated: Low Satisfactory

The Service Test is rated: Needs to Improve

DESCRIPTION OF INSTITUTION’S OPERATIONS IN CINCINNATI MULTISTATE MSA

The Cincinnati MSA assessment area includes Butler County, Ohio, and Union County, Indiana. These two suburban counties are located north of Hamilton County, Ohio, where Cincinnati is located. First Merchants operates two offices in this assessment area.

Economic and Demographic Data

The assessment area contains all 82 tracts in Butler and Union counties. According to 2015 ACS data, these tracts reflect the following income designations:

- 11 low-income tracts
- 17 moderate-income tracts
- 30 middle-income tracts
- 21 upper-income tracts
- 3 tracts with no income designation

All of the low- and moderate-income tracts, and nearly the entire assessment area population, are in Butler County. Union County is one of the smallest counties in Indiana and is home to only slightly more than 7,000 residents, compared to more than 370,000 in neighboring Butler County. Within Butler County, most low- and moderate-income tracts are concentrated in the cities of Hamilton and Middletown. Union County has only two census tracts, both of which are middle-income.

The following table details select economic and demographic characteristics of the assessment area.

<i>Source: 2015 ACS and 2020 D&B Data. Due to rounding, totals may not equal 100.0%</i>						
<i>(*) The NA category consists of geographies that have not been assigned an income classification.</i>						

According to United States Bureau of Labor Statistics data, unemployment rates in both counties have declined substantially since the onset of the COVID-19 pandemic. However, unemployment rates in Butler County have remained consistently higher than in Union County. As of June 2021, the unemployment rate in Butler County was 5.9 percent, and the rate in Union County was 3.1 percent. However, the labor force in Butler County is more than 50 times as large as that of Union County.

According to Moody’s Analytics, the economic recovery in the entire Cincinnati MSA is strengthening and is now outpacing both Ohio and the nation. Within the assessment area, major employers include Miami University, Cincinnati Financial, and GE Aviation, all of which are in Butler County.

The following table presents the Cincinnati MSA median family income levels for 2019 and 2020, as updated by the FFIEC.

Median Family Income Ranges – Cincinnati MSA (17140)				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
2019 (\$76,700)	<\$38,350	\$38,350 to <\$61,360	\$61,360 to <\$92,040	≥\$92,040
2020 (\$80,100)	<\$40,050	\$40,050 to <\$64,080	\$64,080 to <\$96,120	≥\$96,120

Source: FFIEC

Competition

The assessment area is moderately competitive in the market for financial services. Given the population differences, Butler County is much more highly competitive than Union County. According to FDIC Deposit Market Share data as of June 30, 2021, 20 banks operated 87 offices in Butler County. Of these banks, First Merchants ranked 14th, with a deposit market share of 0.4 percent. In contrast, only two banks operate three total offices in Union County, and First Merchants has the higher deposit market share at 54.6 percent. In terms of lending, First Merchants is not a leading home mortgage or small business lender in the assessment area. According to 2020 HMDA aggregate data and 2019 CRA aggregate data, First Merchants’ market shares for both products was less than one percent by both number and dollar volume across the two counties.

Community Contacts

Examiners reviewed a recent contact with a local affordable housing organization that operates in the assessment area. The contact cited affordable housing as a significant need in the assessment area. Specifically, there is a need for additional housing in the \$75,000 to \$100,000 range. Also in demand are programs that serve the needs of low- and moderate-income individuals, such as down payment assistance programs and alternative credit programs that offer flexible underwriting standards. The contact noted that local financial institutions could be more responsive to the credit needs of underserved low- and moderate-income neighborhoods throughout the Cincinnati MSA.

Credit and Community Development Needs and Opportunities

As noted in the previous section, affordable housing is a significant need in the assessment area, along with various lending programs and financial education tailored to the needs of low- and moderate-income borrowers. Opportunities for revitalization and stabilization are present, particularly in the low- and moderate-income areas of Hamilton and Middletown, both of which are in Butler County. Finally, community services for low- and moderate-income individuals remains a significant need.

SCOPE OF EVALUATION – CINCINNATI MULTISTATE MSA

The scope of evaluation in the Cincinnati Multistate MSA rated area is largely identical to the overall scope of evaluation for the institution. However, given the very low volume of small farm lending in this assessment area, examiners did not analyze that product. Examiners conducted a full-scope review of the Cincinnati MSA assessment area, which is the only assessment area in this rated area.

CONCLUSIONS ON PERFORMANCE CRITERIA IN CINCINNATI MULTISTATE MSA

LENDING TEST

The Lending Test rating is Needs to Improve for the Cincinnati MSA rated area. The bank's poor geographic distribution, lack of community development lending, and limited flexible lending practices in this assessment area negatively impacted performance under the Lending Test.

Lending Activity

Lending levels reflect adequate responsiveness to assessment area credit needs. The bank's lending levels are low in this assessment area relative to its other markets. Overall, the bank's lending volume in the Cincinnati MSA (at 0.6% of total loans) is relatively consistent with the percentage of deposits that it attracted from the offices in this market (0.7%). The following table details First Merchants' 2019 and 2020 originations by loan type in the assessment area.

Lending Activity – Cincinnati MSA				
Loan Product	2019 #	2019 \$(000)	2020 #	2020 \$(000)
Closed-End Home Mortgage	12	2,241	18	2,476
Open-End Home Mortgage	16	1,037	19	2,096
<i>Subtotal: Home Mortgage</i>	28	3,278	37	4,572
Small Business	16	2,472	50	3,887
Small Farm	13	1,946	13	2,337
TOTAL	57	7,696	100	10,796
<i>Source: Bank Data</i>				

Geographic Distribution

The geographic distribution of loans reflects poor penetration throughout the assessment area. Poor performance of closed-end home mortgage lending, open-end home mortgage lending, and small business lending support this overall conclusion.

Closed-End Home Mortgage Loans

The geographic distribution of closed-end home mortgage loans reflects poor penetration throughout the assessment area. In 2019, the bank did not originate any closed-end home mortgage loans in low- or moderate-income tracts, and the bank did not originate any closed-end loans in low-income tracts in 2020. In 2019, the bank originated three closed-end loans in moderate-income tracts, exceeding aggregate data. However, overall geographic distribution remains poor. Additionally, performance has declined since the previous evaluation. For example, in 2016, the bank originated 10 home mortgage purchase loans in moderate-income tracts in this assessment area. The following table details the geographic distribution of closed-end home mortgage lending.

Geographic Distribution of Closed-End Home Mortgage Loans

Open-End Home Mortgage Loans

The geographic distribution of open-end home mortgage loans reflects poor penetration throughout the assessment area. Across both 2019 and 2020, the bank originated only one open-end home mortgage loan in a moderate-income tract and no open-end loans in low-income tracts. The following table details the geographic distribution of open-end home mortgage lending.

Geographic Distribution of Open-End Home Mortgage Loans						
Assessment Area: Cincinnati MSA

Small Business Loans

The geographic distribution of small business loans reflects poor penetration throughout the assessment area. Lending was below applicable aggregate and demographic data in low- and moderate-income tracts in both 2019 and 2020, as reflected in the following table.

Geographic Distribution of Small Business Loans						
Assessment Area: Cincinnati MSA						
Tract Income Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%

Borrower Profile

The distribution of borrowers reflects good penetration to individuals of different income levels and businesses of different sizes. While open-end home mortgage lending was stronger under this criterion, the conclusion is supported by results in the other two product lines.

Closed-End Home Mortgage Loans

The distribution of closed-end home mortgage loans reflects good penetration to retail customers of different income levels. As shown in the following table, the bank's lending to low- and moderate-income borrowers was comparable to or above aggregate levels in both 2019 and 2020. For example, in 2020, the bank's lending was well above aggregate levels for both income categories.

Distribution of Closed-End Home Mortgage Loans by Borrower Income Level						
Assessment Area: Cincinnati MSA						
Borrower Income Level	% of Families	Aggregate Performance % of #	#	%	\$(000s)	%
Low

Open-End Home Mortgage Loans

The distribution of open-end home mortgage loans reflects excellent penetration to retail customers of different income levels. As shown in the following table, the bank's lending to low- and moderate-income borrowers was above (in many cases, significantly above) aggregate levels in both 2019 and 2020.

Distribution of Open-End Home Mortgage Loans by Borrower Income Level						
Assessment Area: Cincinnati MSA						
Borrower Income Level	% of Families	Aggregate Performance % of #	#	%	\$(000s)	%
Low						
2019	20.9	6.0	1	6.3	20	1.9

Small Business Loans

The distribution of small business borrowers reflects good penetration among businesses of different sizes. As shown in the following table, small business lending to businesses with revenues of \$1 million or less was well above aggregate in 2019, the most recent year for which aggregate data was available.

Distribution of Small Business Loans by Gross Annual Revenue Category						
Assessment Area: Cincinnati MSA						
Gross Revenue Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%

Community Development Loans

The bank did not originate any community development loans in this assessment area.

INVESTMENT TEST

The Investment Test rating is Low Satisfactory for the Cincinnati MSA rated area. The bank's adequate level of qualified investments supports this conclusion.

Investment and Grant Activity

The bank has an adequate level of qualified community development investments and grants. The bank made two investments totaling \$448,000 in this assessment area, both of which were mortgage-backed securities that supported affordable housing for low- and moderate-income borrowers.

Responsiveness to Credit and Community Development Needs

The bank demonstrated adequate responsiveness to credit and community development needs. Both investments supported affordable housing, which is a significant community development need in the assessment area.

Community Development Initiatives

The bank does not use innovative or complex investments to support community development initiatives. Both investments in this assessment area were traditional mortgage-backed securities routinely used by private investors.

SERVICE TEST

The Service Test rating is Needs to Improve for the Cincinnati MSA rated area. Specifically, weak performance under the accessibility of delivery systems and community development services criteria negatively impacted the bank’s Service Test rating.

Accessibility of Delivery Systems

Delivery systems are accessible to limited portions of the assessment area. As shown in the following table, the bank does not maintain any offices in low- or moderate-income census tracts. Additionally, the bank does not operate any ATMs in this assessment area in close proximity to low- or moderate-income areas.

Branch Distribution by Geography Income Level – Cincinnati MSA								
Tract Income Level	Offices of Other Lenders		Census Tracts		Population		Bank Branches	
	#	%	#	%	#	%	#	%
Low	15	14.8	11	13.4	31,509	8.3	0	0.0
Moderate	12	11.9	17	20.7	75,288	19.8	0	0.0
Middle	37	36.6	30	36.6	136,546	35.9	1	50.0

Total	101	100.0	82	100.0	379,837	100.0	2	100.0

Source: 2015 ACS Data, 2020 Peer Deposit Data, and Bank Records. Due to rounding, totals may not equal 100.0.

Both offices are located a substantial distance from most of the low- and moderate-income census tracts in the assessment area. One office is located in Union County, Indiana, which contains only middle-income tracts. The other office is located in Oxford in the northwestern corner of Butler County, Ohio. The closest low- or moderate-income tract is a 20-minute drive from this branch. The majority of low- and moderate-income census tracts are located even further away in the eastern portions of Butler County. Most of these tracts are at least a 30-minute drive or further from the Oxford branch. As such, delivery systems are not readily accessible to the majority of low- and moderate-income portions of the assessment area.

Changes in Branch Locations

The bank did not open or close any branches in this assessment area during the evaluation period. Therefore, this criterion did not affect the Service Test rating.

Reasonableness of Business Hours and Services

Services and business hours do not vary in a way that inconveniences portions of the assessment area, particularly low- and moderate-income geographies and individuals. Services and business hours are virtually identical across the two offices. Both offer Saturday hours and drive-up services. Any variations in services or hours are minor and do not predominantly affect low- and moderate-income areas.

Community Development Services

The bank provides few community development services in this assessment area. Throughout the evaluation period, the bank provided only one community development service in this assessment area. This service involved a bank officer providing financial education at a school with primarily low- and moderate-income students.

APPENDICES

LARGE BANK PERFORMANCE CRITERIA

Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) through its lending activities by considering a bank's home mortgage, small business, small farm, and community development lending. If consumer lending constitutes a substantial majority of a bank's business, the FDIC will evaluate the bank's consumer lending in one or more of the following categories: motor vehicle, credit card, other secured, and other unsecured. The bank's lending performance is evaluated pursuant to the following criteria:

- 1) The number and amount of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, in the bank's assessment area;
- 2) The geographic distribution of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on the loan location, including:
 - i. The proportion of the bank's lending in the bank's assessment area(s);
 - ii. The dispersion of lending in the bank's assessment areas(s); and
 - iii. The number and amount of loans in low-, moderate-, middle- and upper-income geographies in the bank's assessment area(s);
- 3) The distribution, particularly in the bank's assessment area(s), of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on borrower characteristics, including the number and amount of:
 - i. Home mortgage loans low-, moderate-, middle- and upper-income individuals
 - ii. Small business and small farm loans to businesses and farms with gross annual revenues of \$1 million or less;
 - iii. Small business and small farm loans by loan amount at origination; and
 - iv. Consumer loans, if applicable, to low-, moderate-, middle- and upper-income individuals;
- 4) The bank's community development lending, including the number and amount of community development loans, and their complexity and innovativeness; and
- 5) The bank's use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- and moderate-income individuals or geographies.

Investment Test

The Investment Test evaluates the institution's record of helping to meet the credit needs of its assessment area(s) through qualified investments that benefit its assessment area(s) or a broader statewide or regional area that includes the bank's assessment area(s). Activities considered under the Lending or Service Test may not be considered under the investment test. The bank's investment performance is evaluated pursuant to the following criteria:

- 1) The dollar amount of qualified investments;
- 2) The innovativeness or complexity of qualified investments;
- 3) The responsiveness of qualified investments to available opportunities; and
- 4) The degree to which qualified investments are not routinely provided by private investors.

Service Test

The Service Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by analyzing both the availability and effectiveness of the bank's systems for delivering retail banking services and the extent and innovativeness of its community development services.

The bank's retail banking services are evaluated pursuant to the following criteria:

- 1) The current distribution of the bank's branches among low-, moderate-, middle-, and upper-income geographies;
- 2) In the context of its current distribution of the bank's branches, the bank's record of opening and closing branches, particularly branches located in low- or moderate-income geographies or primarily serving low- or moderate-income individuals;
- 3) The availability and effectiveness of alternative systems for delivering retail banking services (*e.g.*, RSFs, RSFs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs) in low- and moderate-income geographies and to low- and moderate-income individuals; and
- 4) The range of services provided in low-, moderate-, middle-, and upper-income geographies and the degree to which the services are tailored to meet the needs of those geographies.

The bank's community development services are evaluated pursuant to the following criteria:

- 1) The extent to which the bank provides community development services; and
- 2) The innovativeness and responsiveness of community development services.

The Muncie MSA is heavily dependent on the presence of Ball State University, which is a top employer in the area along with Indiana University Health Ball Memorial Hospital. According to Moody's Analytics, Muncie's economy has struggled to grow employment since late 2020. As a result, Delaware County's unemployment rate remains higher than the statewide rate. Furthermore, of all of the bank's Indiana assessment areas, the Muncie MSA has the highest percentage of families below the poverty level at 13.0 percent.

In terms of market share, First Merchants is the dominant financial institution in the Muncie MSA. According to FDIC Deposit Market Share data as of June 30, 2021, six banks operated 23 offices in the assessment area. Of these banks, First Merchants ranked first, with a deposit market share of 53.7 percent. According to 2020 HMDA aggregate data, First Merchants was the second ranked home mortgage lender in the assessment area. In addition, according to 2019 CRA aggregate data, First Merchants was the top small business lender by dollar volume in the assessment area.

Lafayette, IN MSA

The Lafayette MSA assessment area consists of all of Carroll and Tippecanoe counties in Indiana. The following table details select demographic and economic information for the assessment area.

Demographic Information of the Assessment Area						
Assessment Area: Lafayette MSA						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	44	6.8	22.7	36.4	27.3	6.8

(*) The NA category consists of geographies that have not been assigned an income classification.						

Lafayette's economy is heavily dependent on the presence of Purdue University, which is by far the top employer in the assessment area. According to Moody's Analytics, Lafayette's economy has been recovering quickly in 2021 following two years of stagnation. The unemployment rates in both assessment area counties have hovered around 4.0 percent in recent months, similar to the Indiana statewide rate.

According to FDIC Deposit Market Share data as of June 30, 2021, First Merchants had the second highest deposit market share among 16 assessment area banks at 23.4 percent. First Merchants was the third ranked home mortgage lender in the assessment area according to 2020 HMDA aggregate data. The bank was also the top small business and small farm lender by dollar volume according to 2019 CRA aggregate data.

Fort Wayne, IN MSA

The Fort Wayne MSA assessment area consists of all of Allen County, Indiana. The following table details select demographic and economic information for the assessment area.

Demographic Information of the Assessment Area						
Assessment Area: Fort Wayne MSA						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #

<i>Source: 2015 ACS and 2020 D&B Data. Due to rounding, totals may not equal 100.0%</i>						
<i>(*) The NA category consists of geographies that have not been assigned an income classification.</i>						

Fort Wayne's economy relies on the manufacturing industry. For example, General Motors operates a large assembly plant in Fort Wayne, employing several thousand area residents. According to Moody's Analytics, the local economy continues to rebound, led by employment and payroll gains in the healthcare and education industries. The manufacturing industry has also performed relatively well despite pandemic-related challenges. Allen County's unemployment rate is currently around 4.0 percent.

According to FDIC Deposit Market Share data as of June 30, 2021, First Merchants had the second highest deposit market share among 20 assessment area banks at 13.2 percent. According to 2020 HMDA aggregate data, among over 300 lenders who originated home mortgage loans in the assessment area, First Merchants ranked 11th with a market share of 2.5 percent by number. Among lenders who reported CRA data in 2019, First Merchants was the top small business lender by dollar volume.

Rated Area: Michigan

Detroit, MI MSA

The Detroit MSA assessment area consists of all of Wayne County, Michigan. The following table details select demographic and economic information for the assessment area.

Demographic Information of the Assessment Area						
Assessment Area: Detroit MSA						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #

() The NA category consists of geographies that have not been assigned an income classification.*

Detroit’s economy remains reliant on the automobile industry. General Motors and Ford Motor Company are Detroit’s top employers. According to Moody’s Analytics, the Detroit area economy is recovering from the effects of the pandemic, but growth has slowed in 2021. Wayne County’s unemployment rate remains somewhat elevated at roughly 6.0 percent. Detroit also has one of the highest poverty rates in the nation. According to 2015 ACS data, nearly 20.0 percent of assessment area families have incomes below the poverty level.

According to 2020 HMDA aggregate data, among over 500 lenders who originated home mortgage loans in the assessment area, First Merchants ranked 68th with a market share of 0.2 percent by number. Among lenders who reported CRA data in 2019, First Merchants was the seventh ranked small business lender by dollar volume in the assessment area.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five-year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Bank CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Bank CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose bank:
 - (i) Has not been reported or collected by the bank or an affiliate for consideration in the bank's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits the bank's assessment area(s) or a broader statewide or regional area including the bank's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of the bank's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or
- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (for example, geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (for example, innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (for example, geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Micropolitan Statistical Area: CBSA associated with at least one urbanized area having a population of at least 10,000, but less than 50,000.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as non-MSA): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in “loans to small farms” as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area’s population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, “urban” consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

“Urban” excludes the rural portions of “extended cities”; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

HMDA Disclosure Statement

Home Mortgage Disclosure Act Statement

The HMDA data about our residential mortgage lending are available online for review. The data show geographic distribution of loans and applications; ethnicity, race, sex, age, and income of applicants and borrowers; and information about loan approvals and denials. This data is available online at the Consumer Financial Protection Bureau's website (www.consumerfinance.gov/hmda).

HMDA data for many other financial institutions is also available at this website.

CRA Disclosure Statement

Community Reinvestment Act Statement

The CRA Disclosure Statement pertaining to the bank, its [operations subsidiaries or operating subsidiaries], and its other affiliates, if applicable, may be obtained on the FFIEC's website at: www.ffiec.gov.

Footnote:

10. A validity edit helps to verify the accuracy of the data reported. An institution's CRA submission that passes all validity edits does not ensure 100% accurate data. True accuracy is determined during the examination process.

11. A record represents one row of data reported to the Federal Reserve Board. This does not in any way represent the number of loans originated or purchased by the institution.

Error Status Information

Respondent ID: 0000004365

Institution: First Merchants Bank

Agency: FDIC - 3

Record Identifier: ¹¹	Total Composite Records on File	Total Composite Records Without Errors	Total Validity ¹⁰ Errors	Percentage of Validity Errors
Transmittal Sheet	1	1	0	0.00%
Small Business Loans	1,060	1,060	0	0.00%
Small Farm Loans	95	95	0	0.00%
Community Development Loans	1	1	0	0.00%
Consortium/Third Party Loans (Optional)	0	0	0	0.00%
Assessment Area	3,089	3,089	0	0.00%
Total	4,246	4,246	0	0.00%

Footnote:

10. A validity edit helps to verify the accuracy of the data reported. An institution's CRA submission that passes all validity edits does not ensure 100% accurate data. True accuracy is determined during the examination process.

11. A record represents one row of data reported to the Federal Reserve Board. This does not in any way represent the number of loans originated or purchased by the institution.

Public Comments

Created	Description	Response
2023-01-04 10:35	[CUSTOMER] wrote public Facebook comment in response to post about reduced branch hours: " I've hated this piece of crap organization since they closed the only branch making a profit in our area, leaving a small rural town with no banking options." Marketing posted a general group reply to all comments; however, logging in case a BCM or ML wants to follow-up directly with this customer. FMB group reply: "Thank you for sharing with us how you feel. We are finding that many customers use our mobile banking app for their day-to-day banking needs. We would love to learn more about your banking needs and how we can find alternative solutions for you. If you'd like to private message us with a phone number and a time, we'll give you a call and see how we can help."	We are very familiar with this client and have spoken to him on several occasions. He is a prior Morristown client and unhappy with the closure in 2021, and the Knightstown closure in 2022. Both locations were convenient for him and the feels we are pulling out of all rural communities. The branch will follow up with him again to see if we can retain the relationship since the client did not ask for a follow up response.
2023-02-10 11:25	customer is upset that we have already closed the Markle branch and now we are closing the Warren branch which is taking the banking industry out of the small towns	Was not happy about the Markle and Warren consolidations. Wanted me to bubble up his concern about us leaving the small communities. He had questions about the building in Markle and I did state that I could not speak to that as I do not have information on the specifics of the sale. He thanked me for calling and said that he thinks it is a bad decision. Closing ticket.
2023-02-14 12:01	He came in to make a deposit and was talking about how he was unhappy about the warren branch closing.	Customer very upset about the consolidation. I covered different options with him to do his banking and he stated that he didn't care what I had to say and that we should stop closing small town banking centers as it has a negative impact on the community, but we were "too big to care."
2022-02-16 14:30	She is wanting to complain about the branch closing, she states that their are multiple beach areas near the branch, and she is concerned because the location is a good location, and the South rockwood branch has closed, so its inconvenient for the North Dixie location to be closed due to the elderly community utilizing that location often.	2/17 - reached out to customer and gave her alternative, closest banking centers she can visit as well as the online/mobile capabilities we have to offer.
2023-02-17 10:55	[CUSTOMER] completed a customer survey after making a transaction using the FMB Mobile App, Online Banking or ATM. She scored FMB a 5 - Detractor and left the below comment: "Better training for staff. a few times when I have interacted with a staff member, they seemed not to know how to answer a question or to complete an unusual transaction." Because her accounts are domiciled at Franklin, I called her to discuss. After talking with [CUSTOMER], she is upset with Trafalgar closing - she's also unhappy with Morgantown. It is inconvenient for her to drive to Franklin but she does when she can't get what she needs down there. I asked for examples - She went into Morgantown to renew or do a new CD, the person that was supposed to help them wasn't available so they had to wait. Then someone else finally helped and that person had to keep leaving the office to ask questions. [CUSTOMER] said they felt like the person didn't know what they were doing. She mentioned that at Franklin it doesn't feel that way but Franklin is too far to go. [CUSTOMER] said they would be looking for a new bank - they are tired of being pushed to do everything digitally. Her daughter feels the same - went into Morgantown and finally left and went to Franklin. [CUSTOMER] is not requiring an additional callback.	Banking Center followed up with client after we received the detractor survey. We have forwarded the information onto our senior management to share the clients' frustrations with our digital services.
2023-03-21 12:58	Customer feedback ticket 752310 on survey: Please assign to [EMPLOYEE] Q1. Overall, how satisfied were you with your experience? •Extremely dissatisfied Q32. Would you like to tell us more about this experience? •Yes Q33. Please describe your experience in detail: The Warren In. Branch is closing in May... I will more than likely switch Banks Q31. How much do you agree with the following statement: First Merchants made it easy for me to make a transaction at a First Merchants banking center. •Strongly disagree Q16. My banker discussed the First Merchants Mobile app and online banking options with me. •already have service Q17. My banker recommended a product or service that fulfilled my needs. •Neutral Q4. How likely are you to recommend First Merchants Bank to a family member, friend or business associate? Detractor (2) Q5. How can we improve your likelihood to recommend us? N/A	unable to contact letter completed
2023-06-08 11:35	Spoke with [CUSTOMER] regarding the branch closing. She is angry to hear of this news. She has been a customer for over 20 years. She has built relationships with the entire staff here at the Trenton Branch and is feeling hurt by this action.	[CUSTOMER] is upset about the closure, she says the trenton area is booming with new businesses going in all the time and the residents of grosse ile who use that branch. she's considering moving her acct to a credit union. i told her that we value her as a customer and that we will do what's necessary to make this transition smooth for her. she appreciated my call
2023-06-09 16:31	Wants call back on Trenton branch closing. Very unhappy with decision to close, specifically uses the Trenton Branch for all banking. I spoke to [CUSTOMER] at the Banking Center today, she is a commercial loan client of [EMPLOYEE]. Feel free to call me for more details	spoke with [CUSTOMER]- she is completely upset and does not understand the logic behind the closing since Trenton is a booming city. She will work with [EMPLOYEE] to determine next steps and if she will be staying with the bank.
2023-06-16 11:03	[CUSTOMER] called in setup an appointment at the Monroe downtown branch which I setup for him. His complaint is that we are closing all of the branches in his area. He lives in the Monroe MI. area. We closed the closest branch to him, and he is not happy about that. He said that if he has to start using an ATM machine to withdrawal his money instead of going into a branch, he will pull all of his money out and close his accounts. He would like someone to call him back about this issue.	BCM has reached out to discuss banking options for him and to make sure he is aware of all of the locations available to him. closing Ticket.
2023-06-20 09:27	Customer is extremely upset that the Alexandria branch closed. States Anderson is too far to drive to do his banking. Customer stated he is 79 years old almost 80 and it is getting harder and harder to drive 25 or 30 miles to do his banking. He would like to escalate this to whoever can assist with his concerns about the drive and the Alexandria branch closing. Customer lives in Summitville.	Thanked customer for feedback and empathized with situation. The distance between the Alexandria branch and Scatterfield branch is 8 miles and 11 minutes, I do understand they reside in Summitville which does make it a little further. The banking center has been closed for over 2 years now and we did retain an ATM at the location for convenience.

Created	Description	Response
2023-06-20 15:03	Not happy with Trenton closing it was close to her and she loves coming in to visit with everyone in this branch.	No response
2023-07-03 15:37	[CUSTOMER] gave First Merchants a negative, 1-star, public-facing review on Google My Business stating, "They closed their Petersburg Branch abandoning the people of Petersburg. Anybody that uses that ATM at the [BUSINESS] is supporting their abandonment. Big middle finger to ya Last Merchants Bank!"	Thank you for your comment, [CUSTOMER]. We understand your concern and the impact closing a banking center has on our customers and the communities we serve. This decision was not made lightly, and we are sorry that it impacted you. Several factors were considered, including the decision to ensure jobs would not be lost. You can find the next nearest branch near you on our website at https://www.firstmerchants.com/locations . As a reminder, you can continue to rely on Mobile and Online Banking. If you need additional assistance, please contact Customer Care at 1.800.205.3464. While this necessary closure impacted you, please know that we are here to attentively help you prosper.
2023-08-04 16:35	I am inconvenienced by the Lafayette branch to be closing the Elston banking center on Nov. 7th. I currently am only 1/2 mile or less from home to the Elson banking center and now will have to drive 2-3 miles to do my banking now. I would like to speak with someone in regard to this matter. Thank you.	Unable to contact letter sent.
2023-08-11 09:22	[CUSTOMER] WAS WANTING TO FILE COMPLAINT ABOUT CLOSING THE BECK LANE BRANCH.	Spoke with [CUSTOMER]. Let her know that the ATM will remain there, and if we have to move it, we will still try to have one in that area. Discussed the nearby banking centers and that team members will relocate to other Tippecanoe County locations. Also discussed mobile deposit, and she is going to stop in the banking center to get help with that.
2023-09-15 08:33	[CUSTOMER] wrote on Twitter: "@FirstMerchants you bought out my local bank, closed our local branch, moved my mortgage to another company and now accused me of canceling my insurance? No lapse in my insurance but a definite lapse in your customer service!"	[CUSTOMER]. We're sorry to hear you had an experience that did not meet your expectations. We take customer service very seriously. Helping you to resolve this is a priority for us now. Please call 1.800.205.3464 and we'll have a VP, Market Leader personally assist you. Thank you.
2023-10-04 15:43	From ticket #: 848202. Customer would like to speak to someone who would know if FMB plans to continue to close the branches in/around Petersburg MI. When will the ATM in Trenton be serviced correctly, he said it works for a week or two and then is down again for sometimes months at a time. Will FMB open up anymore branches near Petersburg MI?	Call has been made to customer to let them know that the ATM is up and working and that we will be monitoring its activity to ensure it stays up and functional for the community. Closing Ticket.
2023-10-04 16:00	Please contact after 2:30pm . Customer is upset that we closed the South Dixie, MI branch. He is also upset that the ATM on N. Dixie HWY is not working and hasn't been working for a week. Wants to know if we can send someone out today to have it looked at. States that he has talked to a branch manager and she has reported the ATM outage multiple times. He states he lives in the middle of nowhere and now has to travel an additional 20-30 minutes to do his banking or use an ATM. States he has a mortgage and a line of credit with us and as soon as interest rates go down he is switching banks. States that he had been a happy customer of Monroe Bank Trust over 30 years and we bit off more than we can chew when we purchased that bank. He feels 'stuck with us' until he can get a lower interest rate. He states he has a large inheritance coming soon and he has opened an account at another institution to handle that money. States he has submitted multiple feedback tickets with us. States he called us earlier today and the lady he talked to asked him for his account number which he didn't have. States she asked him for his SSN and he refuses to give that information. States that she was rude to him. I asked if that was a branch employee or customer care. He believes it was customer care. Customer apologized to me at least twice for having to be the person on the receiving end of the phone line. I advised customer that I am not offended and am more than willing to let him vent and submit feedback for him. He is requesting we call him back and to get the ATM fixed.	Customer called in again about the same issues of the ATM's not working and closing South Dixie . Customer is claiming FMB doesn't care about the MI customers, and he hasn't talked to anybody since this case tix nobody has called him. He is still wanting a call back from someone. There has been a few of us in the call center that's talked to this customer. He is going to move his money to a credit union. Emailing [EMPLOYEE] since i am unable to open case back up to reach out to this customer.
2023-10-10 12:03	Customer is upset because the branch in Petersburg MI is closed down. The nearest ATM never works. He worried that all the branches and ATM's near him will be closed down for good and that he will have to close his accounts and go to another bank. Customer would like to speak to someone who would know if FMB plans to continue to close the branches in/around Petersburg MI. When will the ATM in Trenton be serviced correctly, he said it works for a week or two and then is down again for sometimes months at a time. Will FMB open up anymore branches near Petersburg MI?	BCM has reached out to client to discuss the atm issue is a known issue and we are working to resolve it asap. She has invited the client in to discuss other ways to help them access their funds.
2023-11-03 14:30	Customer is very upset that her banking center in Lafayette on 231 South has now closed. Customer states she is a senior citizen and many other people in their small community are senior citizen, and she feels like none of them were thought about when they chose to close the banking center. They now have to drive 20 mins to another banking center, and it was a lot traffic and construction. She says she is upset that first merchants chose money over the community, she heard that a church offered them lots of money for the building and that's why the close and she would like a call back from someone to make a complaint about what's going on and how it is now an inconvenience to her and many other elderly people.	Spoke with [CUSTOMER]. Addressed her concerns with the Elston banking center closing. Let her know that the ATM will still be accessible, and I also shared with her that we are a part of the Moneypass network, so she can use those ATMS at no cost. I let her know that the team members would all still be with FMB and would be at other locations. She wanted to know where [EMPLOYEE] would be, and I told her he would be covering at various locations until there was an open BCM position that worked. I gave her his phone and email address so she can contact him as needed. She said he had been absolutely wonderful to her and her grandson. She appreciated my call and thanked me for letting her vent. No further action needed.

2023-11-06 13:49	[CUSTOMER] gave First Merchants a negative, 1-star, public-facing review on Google My Business. The customer stated, "They closed 3 banks in my neighborhood the closest bank is over 20 miles away and they can't even keep there A.T.M.s working .you would be better off finding a different bank .the people running this bank chain do not care about their customers"	[CUSTOMER], thank you for your comment. We understand your concern and the impact closing a banking center has on our customers and the communities we serve. This decision is not made lightly, and we are sorry that it impacted you. Several factors are considered in the decision, including ensuring that no jobs are lost. Additionally, we understand how frustrating experiencing technical difficulties with an ATM can be and apologize for the inconvenience. We work diligently to resolve these issues as quickly as possible. If you are in need of immediate assistance, please call 1.800.205.3464 or visit any local First Merchants location. You can find a listing of our branches or ATMs on our website at https://www.firstmerchants.com/locations . We're attentively working to meet your expectations. Thank you for understanding and for banking with us."
2023-11-21 14:55	*Customer not verified* Customer called in today to let us know that the Trenton MI ATM is not working. Customer voiced frustration of her local Trenton branch being closed and having to travel elsewhere to access her money. [CUSTOMER] states she was going to close her accounts but was told that the ATM would still remain behind. She then decided to keep her accounts open as she would have access to her funds via that ATM. Customer states if we aren't going to fix the ATM she will be closing her accounts. I advised customer I would put in a feedback ticket for her to voice her frustration and concern.	I attempted to call customer and it rang a few times and then went to voicemail. Closing ticket as no response required.
2023-12-01 11:53	Received the following one-star BBB review for [CUSTOMER]. I was able to find him in Horizon based on name and zip code. I will ask [EMPLOYEE] to write a response and post to BBB public website. Respond to Customer Review #93558 BBB Customer Review for First Merchants Bank by [CUSTOMER] on 11/30/2023 I was a loyal and appreciative customer of Monroe Bank and Trust, but they merged with First Merchants. Since then the bank has closed many branches and consolidated many of its operations. They are nowhere near the leader and steward that MBT was in my opinion. I also think their corporate office is extremely restrictive on what the local branches can do, and that is very unfortunate. They should empower people at the local level to make decisions based upon local situations. First Merchants comes across to me as greedy, selfish, uncaring, and uninvolved from a people point of view. I stopped my business banking with them, and now I am beginning to switch my personal banking to a credit union. I am very disappointed in what First Merchants has become and what they did to Monroe Bank and Trust. It's very unfortunate.	Thank you reaching out and sharing your frustration about the impact the partnership with Monroe Bank & Trust and First Merchants Bank has had on you. We understand this kind of partnership brings a lot of change and we're sorry to hear that your experience has not met your expectations. We take customer service very seriously. If you'd like to provide more information on the areas you feel can be improved, please contact our Customer Care team by calling 1.800.205.3464, emailing customerservice@firstmerchants.com , or filling out the contact form on our website at https://www.firstmerchants.com/contact . Thank you."
2023-12-05 14:40	Customer lives North of North Manchester, IN and closest branch to his has closed down and he used to take in loan payments to that branch. Closest branch is now 50 miles away and now has to make a long drive to make \$50 loan payment and request to make a complaint.	Unable to contact letter sent.
2023-12-29 17:35	* not verified* Alexandria IN ATM keypad not working. Customer upset because she wanted to deposit money. No sound from pressing button or X on the screen. Customer requests I pass along the frustration of the Alexandria branch being closed. States that we should think more about our small town customers. We give impression they don't matter. Requests to bring the branch back.	ATM now working, BCM at Scatterfield reaching out to client, closing ticket.
2024-01-08 11:41	Customer is very upset that the Elson branch in Lafayette has closed. He doesn't want any further contact. He just wants someone to be aware that he is displeased.	Feedback noted.
2024-02-21 11:49	Customer called regarding the closing of the Daleville branch. Customer is upset that the branch was permanently closed with no plans to reopen. Customer feels that a branch is still needed in the Daleville area. We have recommended money pass ATMs and nearby banking centers. Customer would like someone to call them concerning this issue.	Spoke to [CUSTOMER] and informed her where the ATM was relocating in Daleville. Let her know she will receive marketing communication and the ATM should be in service in the next couple of weeks.
2024-04-23 08:33	This business wrote a 1-star review on Google My Business stating: "DO NOT TRY AND CASH YOUR CHECK HERE IF YOU ARE BLACK! VERY RACIST DISCRIMINATORY BANK." FMB Reply: we don't reply online to allegations of discrimination. Needs to be handled with care. I googled the business phone and contact information.	This is a non client; The account had a password and the branch was unable to reach the client to verify the check. I spoke to the team about treating everyone fairly. The BCM did reach the client today who did verify the check. I tried to call but the V mail was full so I sent an email asking for a call back.
2024-04-24 15:23	Customer is very unhappy with the closure of the Lapel Banking center. She would like call back.	contacted this customer.
2024-04-24 15:45	Customer not happy with Lapel branch closing. He plans on taking his accounts to credit union closer to home. He was only here for customer service and account age.	contacted this customer.
2024-04-26 14:46	Customer would like to speak to higher management about the decision to close the Lapel location. He would like to discuss why it is a bad decision from the perspective of someone who has been in real estate and owns a real estate company. He states that with the growth coming closer to Lapel this is not a good decision. I told customer that I would put a feedback ticket in.	Talked to customer, he appreciated the call. He complimented the team at the banking center and what a fantastic job they all do. He's certainly upset to see the location close, especially for the older clientele. BCM did reach out to him earlier today about listing the building so he realizes this is a decision that cannot be reversed.
2024-04-29 11:03	Received the following (also attached) email from customer regarding the closure of the Lapel Branch. I have replied to the email offering a callback, as of the submission of this ticket, no callback is required: "I have banked at the Lapel First Merchants Bank since it was built in Lapel and banked at the old building prior to that. Now your "Team" has decided to close the location with no input from any of the local people. This proves your " Team" does not care about your customers nor how your plans affect a community. When you leave Lapel I will leave your bank I know you do not care but I want you to know when your done with Lapel then I am done with you."	Accounts are housed at Anderson Downtown location and customer resides in Anderson. Passed along feedback, no response required. Closing ticket.

Created	Description	Response
2024-04-29 12:53	The customer states he has been with FMB for over 50 years and is very unhappy that the Lapel branch is closing. The customer states it is the only branch in town so he is thinking of changing banks due to the closure of this branch.	Assigning ticket to call center, please send no contact letter.
2024-05-01 14:55	Customer is very concerned about the Lapel branch being closed. She requested to speak to a supervisor, so I suggested that I do a feedback ticket in order to get her voice to be heard by those who make decisions.	Customer has been contacted, she is very sad about the banking center closing.
2024-05-06 15:44	Customer used the Contact Us feature on the website to register concerns about Lambertville closure. Customer stated; "closing office on Saturday vs making Temperance full service and closing Lambertville office Comments Mr. Hardwick advocates community-if that is so, then this change is in complete conflict of his mission statement. FORCING us to use Lambertville is a hardship--that area is impacted by heavy traffic, security cameras due to high crime & would benefit that area vs the struggling community of Temperance-whose businesses would welcome the xtra traffic. Also, I believe this bank takes care of Erie, Mi residents since you chose to close their bank. I understand your almighty dollar but do you really understand the impact on the communities when you choose to make these changes?? When was the last time, you made a visit to my village.....?? Have you ever driven in Lambertville---it is chaos despite the security cameras, speed indicators, multi curb cuts etc. The other businesses in that plaza you share would welcome more opportunity to use your lot (they already do)--I pulled my accts from Directions credit union because they moved into the area of Sterns & Secor."	BCM has reached out to customer to discuss banking options and how we can continue to support them and the community. closing ticket.
2024-05-17 13:01	Customer has been notified of the Lapel branch closing. He has stressed to me that this would be a huge negative impact on the community. Lapel is ported to be a rapidly growing community with a large elderly population. The walking convenience and radius is pivotal for the locals to do day to day business. Customer declares that they will transfer accounts to whatever bank were to inhabit the building we left behind.	Spoke to customer and thanked for feedback. Discussed alternative options to conduct banking and informed another bank will not inhabit the building as we own it.
2024-06-07 13:01	Letter submitted to FDIC regarding Lapel closure.	We were able to connect with customer, she was hoping by writing the letter the banking center would remain open. She appreciated the follow up.
2024-11-05 17:48	Spoke with client about O2 integration. Client very upset about moving of accounts. He has never banked at any of the IL offices and the closest one is a half hour away. He feels that he should be able to make a choice of changing banks or staying with FMB. There are many other banks between him and the closest IL office. Going forward with this change is going to force him to switch to another bank. He would like to speak with someone at a higher level.	Market Leader spoke with customer and he stated that he was in contact with SVP Regional Chief Sales Officer and all of his questions were answered, closing out the ticket and let him know he can contact me as well with anything additional. He was happy with that.
2024-11-07 10:05	Customer is upset wants to talk to the president of the bank. She is appalled that she is being forced to be moved to Old Second when she has always gone to the Hammond location as it is closer to her house. With the change she will have to travel further to go to a branch that will be affiliated with Old Second than what she has been doing since 1999. She used terms like being offended and felt discriminated against for just having an address in Illinois, as well as disturbed that even though she has had an account with us since 1999 that we are getting rid of her. She also is upset about the lack of notice she feels that one month is not enough time to prepare for this kind of betrayal.	Market Leader spoke to client. She wanted me to note that she is very upset that she was sold because she lives in IL. I gave her other locations and options. She is still planning to leave because it is too far. Compliance found no indication of discrimination after further review.
2024-11-09 12:22	Customer has questions regarding her account and the change to old second. She isn't happy with the change and stated she is a senior citizen and doesn't understand any of it. She stated she has been with fmb for over 40+ years. She said that none of the old second banks are close to her and that she does all her shopping in Indiana so that East Chicago is what is closest to her. She tried changing her address so that she could avoid the change, however she has a lot of questions regarding her account and the change so she would like a call.	Market Leader talked to client, customer is upset about the change, she is elderly and is not sure about changing all of her direct deposits, etc. We did discuss the process and the welcome packet coming soon. She also stated about going to the Hegewisch location since it is the closest to her now. She asked about coming back in June 25 when she moves to IN.
12/9/2024 9:32	Customer requested feedback for information on how she can re-open her accounts with First Merchants Bank. Lauren stated that her nearest banking center for Old Second is over 68 miles away and that she works in LaFayette, IN and did her banking there. Customer currently lives Watska, IL, nearest O2 banking center is in Chicago Heights, and would like to go to First Merchants Bank in Lafayette and re-open her accounts. She said that those who live in her area should have had the option to stay with First Merchants.	Market Leader talked to client, she did ask what is needed to open a new account with FMB for herself and a minor. I did share that with her, she stated she was going to come into a branch to establish a new account. No other questions besides if her old accounts were closed, which I let her know they were and did transition over to O2.
2024-12-17 16:38	Client is very upset with his account moving to O2, client can walk to Munster Ridge Rd location, but we transferred his accounts to Chicago heights which takes 309 min to get to. He will like the geniuses that sold his acocunts to call him.	Market Leader talked to client, is upset about living close to Ridge and having to go farther to an IL bank. Closed his account with O2.

2025-01-23 16:05	<p>Complainant is not a current customer. She found us by Sitefinity. I followed up with her and talked about her interest in opening a business account with us. She is starting a new business. She lives in Toledo. The closest location to her is Lambertville. According to her, it is 11 miles from her house. I sent an email to the platform staff and let them know to expect her. I did not get a response. She made an appointment for 1-22 and she was waited some time before she was seen. She met with the branch employee and was not treated very well. I called her to follow up and she said she was told by the manager that he wouldnt open an account for her. He said it made no sense for her to choose us considering where she lived. She told me he wasnt very nice or friendly. She felt like her talked down to her and was condescending. Like she didnt look the part. She did mention getting that feeling due to her being Mexican on her fathers side but I dont think that was specifically stated. He advised her to go to one of the banks that she drove past on the way. After her and I talked she agreed to give us another chance and I reached out to the next closest banking center to help her. I called the branch employee just to get his reasoning. He got very defensive and was truly unkind. I was told he didnt need questioned. He said she was odd and he wasnt comfortable with her. I understand we have to be shields up against the many situations we face, but we have to do it with kindness no matter what. She should have left there feeling informed and understanding the reasoning. Instead she felt like she was unworthy. I was sad for her.</p>	<p>Compliance spoke to the Branch Manager and Market Leader and there is no indication of discrimination based on the fact that the non-client could not answer any DDM questions in our system along with basic questions about her business. The Market Leader will also have a conversation with the Branch Manager on how to handle internal conversations to make sure we are following gold standard procedures internally and externally. It is also recommended that they speak to bank protection to determine if this was a legitimate fraud risk and notate that within this note if so, if there is no fraud risk found they should reach out to the client to explain why the account was denied. Conversation has been held with Bank Protection based on the fact that there was no way for the client to answer even simple questions in regard to the account that needed to be opened Bank Protection have deduced there is no need for further action from the bank. Closing Ticket.</p>
